## SHRINERS EXPECTED TO ARRIVE AT BEACH TODAY

Approximately 12,000 Shriners are expected in Virginia Beach today to begin a three-day meeting of the Mid-Atlantic Shrine Association. It will be the 14th annual meeting of the group.

Color and gaiety will mark the convention here which, incidentally, is being held in honor of Herman S. Nowak, of Norfolk, president of the association. Many of the Shriners are planning to continue their visit to Virginia Beach beyond the dates of the meeting.

The top feature of the annual meeting will be a gala parade on Saturday afternoon starting at 2:30 p.m. The parade will form at Atlantic avenue and eighth street and proceed north on Atlantic avenue to the Cavalier Hotel.

In addition to the parade the public is invited to witness the judging of patrol units, Oriental bands and drum corps at the Virginia Beach High School on Friday afternoon at 4 o'clock.

On Friday night at 8 p.m. chautauques from six temples will stage a concert in the Virginia Beach High School auditorium. This event is also open to the public.

Among visiting dignitaries attending the convention will be Past Imperial Potentate Remmie L. Arnold of Acca Temple, Richmond; Deputy Imperial Potentate George E. Stringfellow of Crescent Temple, Newark, N. J.; and Imperial Outer Guard Orville L. Rush of Kena Temple, Alexandria.

The association proper is made up of 82,899 Shriners enrolled in 16 temples in Virginia, West Virginia, New Jersey, Pennsylvania, Delaware, Maryland and the District of Columbia. It is one of 16 similar regional organizations under the jurisdiction of the Imperial Council, Ancient Arabic Order Nobles of the Mystic Shrine.

Khedive Temple of Norfolk, of which J. Ronald McLean is illustrious potentate, is host temple. Joe L. Fennell, a past potentate, is general chairman.

Virginia Beach places of business and principal thoroughfares have been decorated with Shrine emblems and bunting in keeping with the occasion.

## Country Day School Opening Here

These young ladies are a group of the first students to enroll in the new Country Day School for Girls established here by a group of civic-minded citizens. The school's opening is set for September 18 and the school is located in the Wilcox Manor building on the Oceanfront between 35th and 36th streets. The young ladies above are Misses Mary Parke Johnson, Margaret Baillio, Dickson Cooke and Julia Miles. Miss Cook is from Norfolk while the other young ladies live at Virginia Beach. (Simmons Photo)

## COUNTRY DAY SCHOOL HERE WILL OPEN FALL TERM ON SEPTEMBER 18

The transformation of an Oceanfront tourist accommodation facility into a school for girls will be realized here when Virginia Beach's first Country Day School for Girls opens its fall term on September 18.

The new private school will be housed in the Wilcox Manor building between 35th and 36th streets on the Oceanfront here. The Country Day School for Girls is the realization of a project started by a group of prominent Virginia Beach citizens who recognized the need for a college preparatory school.

Open to young ladies from the sixth through twelfth grades, the Country Day School is similar in scope to the Norfolk Academy, for boys.

One of the most enthusiastic supporters of the new school and one of the prime movers in securing a location for the school has been Mr. R. H. Miles, of Cavalier Park, Virginia Beach.

Mrs. Anderson B. Carmichael, who holds a B. S. degree in education from the University of Missouri, will serve as Headmistress. Other members of the faculty include Mrs. James L. Bennett, who will teach Latin and English; Mrs. M. Sutton Carter, who will teach mathematics; Mrs. C. Bernard Brown, History and English; Mrs. Nash Conklin, who will teach the sixth grade; Mrs. H. Gray Parker, teacher of biology and the seventh grade; Mrs. Braden Vandeventer, Jr., who will teach current events; and Miss Bruce Lockwood Tyler, who will serve as secretary and athletic director.

In addition the school will offer courses in music with Britton and Charles Hardin of the Briscoe Hardin School of Music, teaching music appreciation and directing choral music.

It has been announced that there will be two schedules of classes, one for the lower grades and one for the upper grades. Lower grades will operate from 9:00 a.m. until 3:00 p.m. while the upper grades will run from 9:00 a.m. until 4 p.m. There will be a supervised study hour for the upper grades.

Buses will operate from Norfolk and vicinity for students from that area. It was announced.

The private group that has started the school ultimately plans to turn the operation over to a Board of Trustees.

Originators of the project are well pleased with the facilities at Wilcox Manor and they can envision a large campus and fine buildings in the future. There are also plans for scholarships for worthy girls who could not otherwise attend the Country Day School for Girls.

## Blood Needed In Bloodmobile Visit Monday

The Tidewater Regional Red Cross Bloodmobile will visit Princess Anne County on Monday, September 9th at the Community House, 18th and Arctic Ave., Virginia Beach. This is an extra visit to the County in an effort to replenish supplies at the Blood Center in Norfolk.

Mrs. David H. Batheider, Jr., Blood Chairman has issued a special plea that anyone that was unable to give blood at the last visit make an effort to donate at this time. It is too soon for those that donated two weeks ago to come again so it is up to those who didn't to meet the county's quota. The hours are from noon to six o'clock and it is not necessary to make an appointment. The whole procedure usually takes about 45 minutes. Transportation and baby sitters are available and anyone wishing further information may call the Red Cross office at Virginia Beach 938.

I. d. Cross officials have asked that anyone who has jigsaw puzzles, chess checkers, playing cards, paper-back novels and so forth please take them to the Red Cross office, at the Community House, 18th and Arctic Ave., Virginia Beach or call 938 and someone will pick them up. These items are needed for Navy ships that are going to the Arctic and should be collected by September 11th.

## Radio Program Giving Away Million Dollars

Tom McNamara, WBOF's weekly morning disc-jockey is giving away a cool million dollars in cash on his "Beach Patrol" show.

To win, listeners must complete the statement "Why I'd Like One Million Dollars in Confederate Money." The winning entry will win one million dollars in Confederate Money.

When asked the reason for the giveaway, Tom said, "Other radio stations are giving away nickles and dimes and making it a big deal. We at WBOF wanted to do it right." Thus the \$1 million prize.

"Think of the possibilities," Tom says, "some wife will really shock her husband when he arrives home tired and dejected some night and she says, 'guess what happened today honey? I won a million dollars.'"

"This is a contest for people who believe the South will rise again, for people who've always wanted money to burn, for people who'd like to be known as 'the last of the big spenders.'"

The contest will continue until September 8th. The winner will be announced and presented with the "cash" prize at a special "remote" broadcast of the "Beach Patrol" show from Oceana Drugs on September 7th.

## Local Citizens In Richmond

Approximately 30 Virginia Beach residents are expected to be in Richmond today for the important public hearing called by the State Department of Highways concerning the proposed bridge-tunnel across Chesapeake Bay.

Included in the Virginia Beach delegation will be City Manager W. Russell Hatchett, members of the city council, city office holders and leading civic and business leaders.

The local delegation is favoring a north-south route for the proposed bridge-tunnel. A similar delegation is also in Richmond today representing Princess Anne County.

## Chairmen in Home Society Drive Named

Mrs. David H. Clark, chairman of the Children's Home Society drive for funds in Virginia has announced the makeup of her canvassing organization that is slated to begin soliciting for funds here next Monday, September 9.

Mrs. Clark, who resides in Bay Colony with her husband, Rear Admiral David H. Clark, USN (Ret.), has named area chairmen to assist her in the fund drive.

The following chairmen were announced by Mrs. Clark: Linkhorn Park, Mrs. G. J. Loup; Cavalier Park, Mrs. A. P. Randolph; Bay Colony, Mrs. Frank Motley; Birdneck Point, Mrs. Karl Wunder; North Virginia Beach, Mrs. J. W. Ellis; Mrs. Powell Watson and Miss Sue Brooke; Virginia Beach, Mrs. Pauline Beatty; Mrs. Louis C. Skinner and Mrs. Harry Schaefer. A Gordon Stephenson is general chairman of the drive for Princess Anne County. The fund campaign is scheduled to begin Monday and continue through September 16.

## AREA LEADERS ON HAND FOR HEARING TODAY

The Virginia Department of Highways is conducting a public hearing today in Richmond on the proposed bridge-tunnel across Chesapeake Bay and on hand will be large delegations from the City of Virginia Beach and Princess Anne County.

The local delegations, are in Richmond in force to add strength to the Chesapeake Bay Ferry Commission's recommendation of a north-south route for the proposed bridge-tunnel crossing.

It was rumored that members of the State Department of Highways were in this area earlier this week to inspect the two routes for the bridge-tunnel and the areas it would serve. If highway officials did tour the area it was no doubt, to become completely familiar with the area under discussion at the public hearing.

Immediately following the Commission's announced recommendation favoring the north-south route, proponents of an east-west crossing sent up a howl of protest. The hearing is being held primarily because of the arguments that have ensued concerning the route of the bridge-tunnel.

Officials of the City of Virginia Beach are in Richmond today and all members of the Princess Anne County Board of Supervisors have announced earlier that they would attend. Both Virginia Beach and Princess Anne County have passed resolutions favoring the north-south route.

Plans were announced last week by WTAR-TV that three hours of the hearing would be telecast live from Richmond.

## New Motel Is Planned Here; To Cost \$350,000

A new oceanfront motel, complete with a swimming pool, will be built at 34th street and Atlantic avenue here, according to a spokesman for the Hotel Warner Corporation.

Actual construction of the new motel will begin on September 15 and its estimated cost will run \$350,000, according to Jack Gold, president of the Corporation.

The building will be of an L-shaped design of concrete, masonry, steel, glass and Florida brick. The building will be three stories on the oceanfront and two-storied on 34th street. The motel will be completely air-conditioned.

Plans call for 39 guest rooms in the new tourist facility with 21 suites with private terraces overlooking the Atlantic ocean.

Another feature of the modernistic design of the motel will be a solar deck and a terrace which will flank the kidney-shaped swimming pool. It will mark the first swimming pool here located on the Oceanfront within the city limits.

The building has been designed by Sol William Cohen of Norfolk and the contract for construction has been awarded to the Belanga Construction Corp., also of Norfolk.

The new motel will be located just across the street from the Hotel Warner on 34th Street.

## Exams Will Be Given Former H. S. Students

The State Department of Education makes available the General Educational Development Test to be administered at the local School Board Office to people who at one time were high school students but did not remain in high school to graduate.

This examination requires from five to six hours to administer.

For the most part, students will be examined in the following areas: English, Mathematics, Science, and Social Studies. Students who are successful in the completion of this test will be awarded a certificate which is the equivalent of a high school diploma and usually college and industry accept this in lieu of the high school diploma.

Individuals interested in this examination should get in touch with the School Board Office and fill out an application for the General Educational Development Test.

The next testing period will be on October 24.

All people interested in taking this test should contact the School Board Office not later than September 16, 1957.

## Area Schools Re-Open Friday With Officials Expecting Record Enrollment

Schools in Princess Anne County and the City of Virginia Beach will open officially Friday morning and on Monday a full schedule of classes will be observed, according to an announcement by Frank W. Cox, divisional superintendent of schools.

There will be three new facilities put into use this year, according to Cox. New schools being opened this year include the new primary building at Little Creek, the Larrimore School at Little Creek and the Woodstock school at Kempville.

School officials are estimating a total enrollment this year of approximately 19,500 pupils in both the county and city schools systems. This is broken down into 17,000 for the county schools and 1,500 for the city schools. The city schools are the Virginia Beach High School and the W. T. Cooke Elementary School.

Everything is in readiness to receive the pupils on Friday, according to school officials. The faculties have been preparing for the opening for the past several weeks.

Major points in re-opening of the schools is repairs to the various educational plant buildings, getting the preliminary paper work done and, of course, the vast transportation system the county operates in transporting the pupils from home to school and back again.

Although Friday's schedule will be a light one it will be full schedules in the schools on Monday and everyday thereafter until summer rolls around again.

## EDITORIAL SPEAKING

### The Richmond Hearing

The public hearing which opens in Richmond today and that is being held by the State Department of Highways is an important meeting. It concerns the proposed physical crossing of Chesapeake Bay.

Despite overwhelming evidence contained in an engineering report that a north-south route crossing is the best possible route of a proposed bridge-tunnel there are those who have waged a vigorous campaign to upset the thinking of the Chesapeake Bay Ferry Commission and its recommendation by advocating an east-west route.

The Chesapeake Bay Ferry Commission, after receiving the report and survey several weeks ago, voted by a 7 to 2 margin to recommend to the State Highway Commission that such a bridge-tunnel be built

and that its route cover a north-south crossing of Chesapeake Bay.

With the facts in hand many political subdivisions, civic organizations and individuals have come forth to endorse a north-south crossing of the Bay that would link the Eastern Shore with a point in Princess Anne County, presumably near Chesapeake Beach.

We do not believe that members of the Highway Commission will be swayed by conversation and that in the final analysis, should that body decide to construct a bridge-tunnel across Chesapeake Bay, the route of such a project would be based on sound facts that were brought out by the study and survey and that the bridge-tunnel route would be a north-south crossing of Chesapeake Bay.

### Safety Needed Now More Than Ever

The public schools of Princess Anne County and Virginia Beach open for a new fall term on Friday and again a record number of pupils are expected to report to the various educational facilities throughout the area.

It would be well to make a mental note that we are now entering another school year and at the same time we should remember that highway and traffic safety measures are needed at this time even more than in the summer months.

Many motorists feel that the speed limits in school areas are too severe, and that the motorists should be allowed to go just a little faster than 15 miles per hour.

Human nature being what it is we doubt that many motorists slow down to that speed so they are actually traveling at 20 or 25 miles per hour.

We believe the present speed limits are just and we believe that the motorists should take stock of himself at this time to remember that school buses are on the roads once again and that small children are entering and leaving these buses. They are our children and must be protected.

Not only is it school time for the children but it also should be school time for the motorist and extra precaution should be taken, particularly when approaching a school area or a school bus on its route.

### Will You Be There?

The Red Cross Bloodmobile is scheduled to make another visit to Virginia Beach on Monday. The question is will you be there? The hot summer months have caused a serious shortage of blood donations and this community must do its part in this fine program sponsored by the American Red Cross and its Princess Anne County Chapter here.

It would be most difficult to explain to a person in need of a blood transfusion the apparent reason for the lack of sufficient blood donors at this time. How does one tell a suffering or dying person that it was the heat this summer that reduced the number of blood donors in this community?

The local Red Cross chapter does a magnificent job in all phases of its work, but particularly in the blood program. To do this job successfully the chapter must have strong support of the citizens of this community.

Donating a pint of blood is really a sim-

ple matter. As outlined in a letter from the Princess Anne Red Cross chapter to parents each of us has 12 pints of blood and when we donate one of those pints a replenish of that pint of blood begins immediately and within 24 to 36 hours we are again up to the 12 pint level.

In this area because of the Red Cross blood program blood is available free to all residents of Princess Anne County and Virginia Beach through the Tidewater Regional Blood Bank. It takes so little of one's time to donate a pint of blood and it could mean so much to someone else.

The local Red Cross chapter offers free transportation for blood donors and even offers a "baby sitting" service to parents. Anyone between the ages of 18 and 60 are eligible to donate.

The bloodmobile will be here Monday from noon until 6:00 p.m. at the Virginia Beach Community House. Remember you may need blood someday. Will you be there?

### Princess Anne Little League

The final week of play in the Princess Anne Little League was one of a process of elimination. The race had been a tight one and there were possibilities that the American Legion, Bears or Anzacs could wind up in a tie with the league leading Pirates. However these teams knocked each other out of the running.

August 26—The Anzacs burst the Legion's bubble of first place tie with a 3 to 1 victory over them. Kenny Ames gave up 3 hits, struck out 7 and walked 4 for the Anzacs. He had one of the hits garnered by the Anzacs. Steve Gallagher had a triple and a total of 2 for 3 times at bat while Mike Oxner collected the only other Anzac hit. For the Legion Gerald Bolling gave up 4 hits, struck out 1 and walked 2. James Tarter had a double, which was 1 for 2 for him, which batted in the only Legion run. Gary Fox, 1 for 3, and Gagy DeBoer, 1 for 2, collected the other Legion hits.

August 27—The Bears hopes were shattered by the Legion who came up with a 5 to 0 victory. James Tarter gave up 2 hits, struck out 10 and walked 3. He had 1 hit, a double for 1 for 2. Gerald Bolling had the other Legion hit. For the Bears, Everett Horton gave up 2 hits, struck out 10 and walked 3.

The Bears committed 8 errors. Jimmy Flippen and Bobby Schaffer each had singles.

August 28—The Legion retaliated Monday night's defeat by the Anzacs by knocking the Anzacs out of contention for first place.

For the Legion Bobby DeMille gave up 4 hits, struck out 8 and walked 4. He hit a homerun with none on and a double for 2 for 2 tries. James Tarter had 3 for 3, 2 singles and a double, and batted in 3 runs. For the Anzacs Steve Gallagher gave up 8 hits, struck out 5 and walked 6. Mike Oxner hit 2 for 3 and Kenny Ames and Mike Gallagher had singles to account for the other Anzac hits.

August 29—The Anzacs went down to defeat at the hands of the Bears, 14 to 0. Wade Johnson gave up 1 hit, struck out 9 and walked 3. Assting him Jimmy Flippen had 2 hits for 4 times at bat. John Crowling and Mike Oxner gave up a total of 7 hits, 8 walks and struck out 5. The leadoff batter, Ricky Meyers, at his first time at bat collected the only Anzac hit.

August 30—The Anzacs avenged their two defeats by knocking the league leading Pirates for a 13 to 0 victory in the last game of the season.

The Indian name for squash, according to a Connecticut college agency, was "askutasquash." Present-day Indians probably approve the squashing of their ancestors' polysyllabic designation as heartily as the descendants of its white squashes do. New Orleans Times-Picayune.

## Scott Rollins, Amateur Archeologist

Over in Baylake Pines lives a young amateur archeologist, with a "hawk eye." He is Scott Rollins, nine years of age and will be in the Fourth Grade at the John B. Jey School, when school opens.

He has three desk drawers full of his "finds" which have practically come from his own back yard. Until about three years ago nothing was known of the early Chesapeake site. One day when the contractors were excavating a basement for a new house they accidentally came across the foundation of an old house. Mr. Painter, from the museum in Norfolk, came out and went over the site very carefully and said it was no doubt the early Chesapeake site settled by the colonists between 620-60. Indians also lived on the site.

Young Scott has proved this to be true by his findings. He told us that he had always been interested in rocks. And had been picking them up and examining them ever since he could remember. One day he picked up a "rock with a hole in it." Upon investigation, the rock "proved to be a part of an Indian Peace Pipe. Since then, Scott has discovered many fragments of pottery, glass, arrow-heads, bones, musket balls (all sizes), a small Irish coin, a German trade token and a seal. He has given many fragments of pottery, coins, etc. to the Norfolk Museum. Floyd E. Painter, Virginia archeologist, has helped Scott identify many of his finds. Because of his diligence and interest the Archeological Society of Virginia made him a duespaid member this year and he attends almost all of the meetings. On the wall of his room is a picture of the Original John Smith map of the area, a gift from the Richmond Chapter of the society.

All of Scott's finds have come from two "holes" in a nearby undeveloped lot, which he calls "Lot 2." In these two places Scott just sits and looks up on the banks where his sharp eyes pick out these fragments of another day.

A house now stands where Scott found the seal stamp which has a "fouled anchor" symbol similar to the U. S. Navy emblem of today that a Chief Petty Officer wears on his cap. But the arrowheads, pipe stems and other tokens can be found in such places as the Rollins driveway.

The coin that Scott found was undated but according to Mr. Painter, it had the initials of James I (1603-1620) on it.

The trade token also had no date on it but had "Augustus Adolphus" stamped on it. Mr. Painter explained that the tokens were put out by merchants in Germany about 1580 and some Virginia Companies used them in trade with the Indians.

Scott's friends don't seem to have his skill for discovery. One came down from Richmond recently and couldn't find a thing. The young archeologist can identify each piece that he has. They are all stored carefully in desk drawers in his room. He showed me lots of arrowheads, pipe stems, some Indian peace pipe stems, some "colonist" pipe stems. There was a difference in the color clay used for each. I also saw fragments of pottery, both Indian and colonist, fragments of wine bottles, bones, a mortar bowl, hand made musket balls, a large jaw bone with teeth in it, which has been identified as a deer's. On top of his desk was a set of science books which help him in his hobby.

Scott is a little young yet to decide whether he wants to be an archeologist, or not. His family are encouraging him in these finds. He resides with his parents Mr. and Mrs. Richard E. Rollins and sister Anne on John Silver Road, Baylake Pines.

## Acreage Reserve 'Soil Bank Base' Is Defined

The "Soil Bank base" to be established for each farm included under the 1958 wheat Acreage Reserve program, is an attempt to limit the total acreage of harvested crops and thus prevent more surplus, according to W. F. Hunter, Chairman of the Princess Anne County Agricultural Stabilization and Conservation Committee.

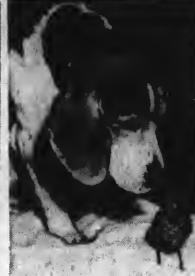

Farmers participating in the Acreage Reserve program will agree to limit their harvest of Soil Bank base crops, the Chairman explained. These base crops, in general, will be all crops produced for harvest on a farm except hay crops. In addition to the "basic" crops — such as wheat, corn, and cotton — the "Soil Bank base" crops include such crops as the grains, annual grasses cut for seed, oilseeds, cowpeas, potatoes, commercial vegetables, field and canning peas and beans.

County A.S.C. Committees will establish a Soil Bank base for each individual farm primarily on the basis of the average acreage of and devoted to such base crops during the past 2 years — 1956 and 1957. As limited under the Acreage Reserve program, the amount of the "permitted acreage" will, in general, be determined by subtracting the number of acres in the Acreage Reserve and the Conservation Reserve from the total in the Soil Bank base.

Harvesting more total acreage from farm than the "permitted acreage" would mean loss of the total Acreage Reserve payment. Wheat farmers have until October 4 to sign an agreement to take part in the 1958 winter wheat Acreage Reserve program. Since the Soil Bank base will be determined from the past production history of the farm, growers are asked to bring along pertinent information when they call at the county office.

Payments under the 1958 winter wheat program will be based on an average county rate of 29.00 per acre, adjusted for the individual farm, primarily according to relative productivity. Individual farm compensation rates have already been mailed to Princess Anne County farmers, the local ASC office reports.

Labor Day traffic is frequently "stop and go." Don't blow your top if you seem to stop more often than you go. It's only an illusion.

## Teachers from Friends School Attend Meeting

Three representatives of Virginia Beach Friends School left Tuesday to attend a three-day teachers' meeting conducted by the Friends Council of Education at Pendle Hill College, Pendle Hill, Pa. They are Mrs. John H. Doyle, Jr., 4th grade teacher and Acting Director of the Virginia Beach School, Mrs. Margaret Phillips, 2nd grade teacher, and Mrs. Robert D. Wilson, board member.

These meetings are held yearly for representatives of Friends Schools from all over the country. There is special emphasis on giving those who will be teaching at Friends Schools for the first time an understanding of the overall academic program and techniques by means of lectures, discussions, and special workshops for such subjects as physical education, music, art, as well as for every grade that is taught, from first grade through high school.

Mrs. Doyle, Mrs. Phillips, and Mrs. Wilson will return to the beach Friday morning. At 10:30 a.m. Saturday, there will be a meeting of the 1957 faculty at Virginia Beach Friends School on Laskin Road. Late registrations may be entered then. School itself opens at 9:00 a.m. Monday Sept. 9.

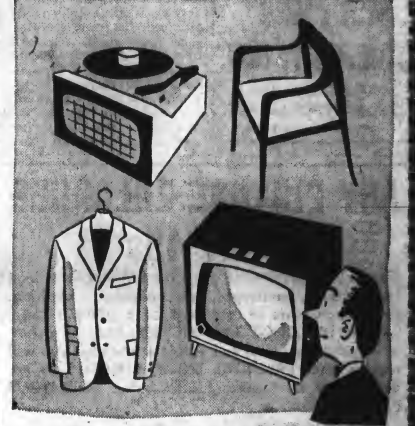

Ronnie Hadley has returned to his home on Lake Bradford Drive, Chesapeake Beach after attending summer school at V. P. I.

## '57 National Home Week Spotlights Bathroom Trends

At least 10,000 new model homes will be displayed throughout the country during National Home Week, September 14 through 22.

And the biggest change over last year's models will be the emphasis on homes featuring multi-bathrooms with colorful fixtures and new designs.

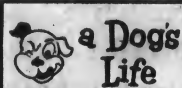

The "Parade of Homes" is slated for 150 cities, reports the Plumbing Fixture Manufacturers Association. Builders and other interested organizations have been working together to show the latest housing developments. They'll throw open the doors of model exhibit homes in most price ranges. Almost every house will feature two bathrooms and many will have even more bathing facilities. Bathroom fixture colors will include blue, green, pink, yellow, ivory, gray, deep red, and auburn. Some of the new bathroom fixtures to be displayed in model homes will include silent flushing and non-sweating toilets, square tubs, small sized receptor tubs for showers, and the new

dental lavatories, which are designed specifically for brushing teeth.

A number of model homes will show that children are now coming in for special attention in the design of bathrooms. Junior-sized fixtures, which can be easily and economically replaced as the children grow, will be displayed.

In every instance, builders will show the efforts they have made in carefully planning bathroom facilities to eliminate the morning and evening rush-hour bottlenecks.

The exhibits will do more than illustrate the trends of new home construction, the NFMA points out. They will also give ideas aplenty to homeowners planning the addition and modernization of bathroom facilities in their present homes.

THE GARBAGE CAN DOG  
by Dr. E. M. Gildow, D.V.M.

There is an old superstition that a dog, given too much food, will know by instinct when to stop eating. This simply isn't true. So it's a good idea to safeguard your pet's eating habits by keeping extra food and throw-aways out of reach.

This brings us to the garbage can—a favorite "restaurant" for some dogs when given the

chance. The garbage can is no place for your dog to rummage, and it's your job to see he stays away from it. Enclose, elevate, or otherwise make your garbage can inaccessible to your dog, to neighbors' dogs and to scavenger dogs.

Another useful suggestion for keeping your pet away from garbage is to sprinkle the top layer of the can's contents with pepper. Be generous with the pepper and do it for about a week or more until you're sure the dog has suffered through his lesson.

It is a good idea, if possible, to keep your dog away from the area of the garbage can from the time he is a pup. It's important at all times, to impress on him the fact that he should not go near the garbage.

Tip: Just because a dog for food is no reason, him something to eat, than you would a, for a lollipop, or nutritional content, day of a quality, Friskies, rationed his size, weight, enough.

## Adams Edsel, Inc., Now Showing Cars In New Dome

The Edsel — Ford Motor Company's new medium-priced car introduced throughout the nation last week — will be sold and serviced through Adams Edsel, Inc., 17th Street Extended, Virginia Beach, which has been announced as an authorized Edsel dealership by Emerson Planek, Washington district sales manager for Edsel Division.

Plans for a grand opening will be announced soon by Rhoe W. Adams, president of the new Edsel dealership. Mr. Adams has been in the automobile business for the past ten years, and in this city for four years.

Lynn Kennett has been named general manager of the dealership; Frank Brandenburg, sales manager; and Elwood Rea, service manager. Ford Motor Company has invested \$250 million to introduce the new Edsel, Mr. Planek said. The new car — in four series and 18 models — will be marketed initially thru an organization of some 1,200 to 1,500 dealers. Eventually, Edsel dealers will number

between 2,500 and 3,000.

Behind the Edsel dealership organization is an Edsel force of five regional and 24 district sales offices. Home offices for the Edsel Division are in Dearborn, Michigan.

Edsels will be produced at six Ford Motor Company assembly plants: Mahwah, N. J.; Somerville, Mass.; Wayne, Mich.; Louisville, Ky.; Los Angeles and San Jose, Calif. Production began July 15.

Included in the four Edsel passenger car series — Ranger, Pacer, Corsair and Citation — are two convertibles and a full line of two- and four-door sedans and hardtops. There also will be five Edsel station wagons in the line.

## This is the EDSEL

"A remarkable new automobile  
joins the Ford family of fine cars"

There has never been a car like the Edsel. It is a magnificent automobile. Behind it lie all the resources of Ford Motor Company, all of the experience and engineering skill. The results: The Edsel is powered by the newest V-8 engines in the industry — the Edsel 400 and the Edsel 475. Specifications: 400 and 475 foot-pounds of torque; 303 and 345 horsepower; 10.5 to 1 compression ratio.

The Edsel's big, safer brakes do not need periodic tightening.

They adjust themselves automatically in the course of your day-to-day driving.

The Edsel shifts itself. With Teletouch Drive, you just touch a button on the steering wheel hub. Teletouch Drive does the rest — smoothly, surely, electrically.

The Edsel's list of available new features includes contour seats; a warning light that flashes when you exceed your pre-set speed limit; another that flashes when oil is one quart low; a release that lets you open the luggage com-

partment from the driver's seat. There are many things that make the Edsel different from any other car you have driven. More exciting, more sure, more safe.

What does an Edsel cost? Prices range from just above the lowest to just below the highest. You can afford an Edsel. And you can choose from four series, 18 models.

Stop in soon at your Edsel Dealer to see and drive the newest car in the world: the Edsel.

## New Fuel Oil Reduces Soot, Saves Money

The idea of "Rocket 309" pretreatment of household fuel oil to provide less expensive heating and trouble-free operation of heating equipment is the newest advance in oil heating in 30 years. It's development makes possible an average saving of 20% in home heating cost.

"Rocket 309" was developed by one of the country's oldest compounders of fuel oil and boiler room chemicals in the industry. It is designed to very substantially increase the efficiency and economy of fuel oil heating through such factors as more complete combustion, cleaner smoother burning, and soot free furnaces.

With the aid of other petroleum research laboratories, and after years of experimenting, a compound has finally been perfected capable of eliminating four objectionable features prevalent in standard grades of domestic fuel oils:

1. Water condensate that normally forms in fuel oil under normal storage conditions.
2. Rust and electrolytic corrosion in fuel oil tanks.
3. Nozzle clogging sludge and sediment.
4. Soot formation in furnaces.

Atlantic Fuel Oil Co. is the exclusive user of "Rocket 309" for pretreatment of fuel oil in the whole Tidewater area.

Full information on this amazing new development is available by writing or calling

ATLANTIC FUEL OIL CO.  
Box 29, Virginia Beach, Va.  
Telephone V. B. 2300

### Reason for "Rocket 309"

For 30 years, fuel oil dealers have sold pretty much the same product. Within the last two years, several chemical companies, because of recommendations from progressive fuel oil distributors like Atlantic Fuel Oil Co., have developed additives specifically designed to control soot, scale formation, sludge and water condensate and electrolytic corrosion, but this is the first time that a fuel oil has been locally pretreated and merchandised with all these features combined.

Pretreatment with "Rocket 309" makes a PREMIUM fuel oil, that gives more heat and burning efficiency, yet costs no more than conventional, old fashioned fuel oils. That's the reason behind amazing "ROCKET 309."

## The MIXING BOWL..

IT'S Fun TO COOK.

By LUCILE CLARK  
SUN-NEWS FOOD EDITOR

For the very latest in food fads and follies... for practical, down-to-earth recipes that please both palate and pocketbook, read the "Mixing Bowl" by Lucile Clark each Thursday in the Sun-News.

Hello-there! Hope you enjoyed a pleasant Labor Day week-end. It's hard to believe another summer is just about over. Well-it is and before long - School bells will be ringing. Along with all the extra chores - feeding the family is a most important one and keeps most of us looking for something different to serve.

September brings us luscious plums. The panorama of fresh plum colors is one of the prettiest in the fruit world - whole symphony of hues: Among the prevailing beauties are: Duquesne large and rich red; Santa Rosa, crimson with flesh golden at the heart and dark red near the skin; Presidents, richly purple and red-fleshed; Formosa, heart-shaped and turning from topaz to ruby as they ripen; Kelseys, ranging from subtle greenish-bronze to red; Damos, small ovals of gleaming black; Green Gage, round and golden-green; Giants, big, purple-red and golden flesh.

Nutritious fresh plums and prunes willingly go to work in lots of ways that give the home-maker scope for the delicious, out-of-the-ordinary dishes that add so much to any cook's reputation. So you see here's a wonderful fruit to help you in your meal planning.

Fresh plums added to pears, apples, grapes and cottage cheese can be the plus note of eye-appeal and flavor zest in a super fresh fruit salad plate. On fresh plums or prunes shining through a shimmering mold of clear gelatin and topped with golden fresh lemon sauce make a dinner-table picture that tastes as delightful as it looks.

Of all the stone fruits, the plum has the largest number of family members. H. F. Tysser, editor of "Fruit Annual", published in London, says that there are over 2,000 varieties. Samuel Fraser, in his book, "American Fruits", speaks of a list of 1,500 Old World Plums and says that there are probably just as many varieties of plums native to this continent. In addition,

there are many kinds of Chinese and Japanese plums.

Here are some recipes that sound mighty tempting.

**Jellied Fresh Plums with Golden Fresh Lemon Sauce**

2 envelopes unflavored gelatin  
1/2 cup cold water  
1 1/4 cups hot water  
3/4 cup sugar  
1/2 cup fresh lemon juice  
2 cups sliced fresh plums  
Golden Fresh Lemon Sauce  
Soften gelatin in cold water. Add hot water and stir until gelatin dissolves. Stir in sugar, lemon and orange juices. Chill until mixture is about as thick as fresh egg whites. Fold in sliced plums. Turn into a 5-cup ring mold. Chill until firm and ready to serve. To serve turn out onto a serving plate and serve with Golden Fresh Lemon Sauce.  
YIELD: 6 to 8 servings.

**For Jellied Fresh Plum Salad,** serve the above on each lettuce with mayonnaise and cottage cheese. Omit the Golden Fresh Lemon Sauce.

**Golden Fresh Lemon Sauce**  
2 eggs, separated  
1 1/2 tablespoons fresh lemon juice  
1/2 cup sifted confectioners' sugar  
1/16 teaspoon salt  
1/2 teaspoon pure vanilla extract  
1/4 teaspoon grated lemon rind

Beat egg yolks with lemon juice until light and creamy. Gradually beat in 1/2 cup of the sugar. Add

GRASS stains can usually be removed from clothing if they're newly made by sponging with ammonia and water. Wash in suds and let dry in the sun. Chewing gum can be problematical when you get it on clothes. Hold an ice cube underneath the gum, then over it and get it frozen solid. Scrape off. Dog hair will come off upholstery.

### THIS WEEK'S RECIPE

**Crusty Tomato Halves**

(Serves 6)

6 medium-sized tomatoes  
2 tablespoons softened butter  
1/4 cup fine bread crumbs  
1/2 cup grated Cheddar cheese  
1 teaspoon prepared mustard  
1/2 teaspoon salt  
1/4 teaspoon pepper  
2 tablespoons bacon drippings  
Rinse and cut tomatoes in halves. Spread with butter blended with mustard. Mix together remaining ingredients and top tomatoes with the crumb mixture. Broil 3 inches from source of heat for 1 to 10 minutes.

stered pieces with a great deal of ease if you rub softened camels over the furniture.

Brass pipes and fixtures can be polished to brilliance if you rub a cut piece of lemon over them. Rinse off with hot water and then polish until they shine.

Clothes are much easier to iron if your board is well padded and the cover stretched taut over it. Have the cover damp when you place it on the board for best results.

Never iron over buttons, hooks, snaps or fasteners. These will scratch the bottom of the iron. Zippers should always be closed before ironing.

Toss your plastic clothes line in warm water and suds either in the tub or washing machine to clean it easily. Rinse before using.

## ELECTRIC "HEARTS" FOR DAIRY FARM

Franklin McCrery could well describe the two key electric pumps on his Colerain, N. C., farm as the "hearts" of his modern dairy operation. These "hearts" furnish running water in the McCrery home, in the milking parlor and milk room, and to an irrigation reservoir.

Water for the McCrery's modern, well equipped home and for the dairy is supplied by an electric water system which pumps the required 4000 gallons

or more each day at a power cost of less than 10c.

Another electric pump supplies water to a reservoir for irrigating 30 acres of permanent pasture. Mr. McCrery lists these advantages of his irrigation system: About 60 more grazing days a year; Grazing for an additional 15 animals on the same acreage. Insurance against drought.

As Mr. McCrery's father says, "Without water under pressure, we would have no dairy."

People who can easily pay any price say:

**"Pay more...what for?  
Ford's the buy!"**

Why? Because this 1957 Ford gives you the advanced features, the solid ride, the effortless handling that you once expected to find only in expensive cars. And when it comes to looks, where can you find fresher styling than in the sculptured-in-steel lines of this new Ford?

Ford's superiority is evident in many places. In the vital rear axle, the pinion gear that turns the rear wheels is straddle-mounted... supported between two anti-friction bearings instead of being "overhung" from a single bearing. This makes operation quieter, smoother and longer-lasting. It's a feature that Ford shares with only one other car maker in the world—Rolls Royce.

Or consider Ford's famous V-8 engine. No other manufacturer in the industry today electronically balances every V-8 engine, while operating under its own power, the way that Ford does. This means you get a smoother-running engine—the finest V-8 in Ford's 25 years of V-8 leadership.

There are only a few of the important hidden values that are yours in Ford. But they indicate why so many people who can pay almost any price for a car—people who have driven expensive cars for years—are buying Ford today. Action Test this great performing car at your Ford Dealer's just once and you, too, will ask, "Pay more... what for?"

YOU CAN SPEND HUNDREDS MORE... BUT YOU CAN'T BUY BETTER THAN THE NEW KIND OF FORD

**LITTLE WOMAN**

Little girls seem to be "natural-born" little women, right from the start. Laura washes for her dollies just as seriously as if she were tending a "real-life" family. She likes to bake tiny cakes and cookies too, and she has her own way of enforcing discipline when her dollies are "naughty." Sometimes I'm amazed by her, even if I am her mother. And I am awed at the way God fashioned little girls, so that from the beginning they seem to sense that one day they will be mothers themselves. When I take Laura to Church with me, she's such a little lady, demure and yet amazingly intent for one her age. I look at her. I see one of God's miracles, and I marvel anew. Watching a child grow is a perpetual lesson in Faith. Sometimes after Church Laura lines her dollies up on a bench. She tells me that "the dollies are in church," and I don't feel in the least like chuckling at her childish antics. Rather, I am grateful.

## THE CHURCH FOR ALL

The Church is the greatest factor in the building of character and good citizenship. It is a storehouse of spiritual values, democracy, self-discipline, and service. There are four reasons why every person should attend church regularly and support the Church. They are: (1) For the children's sake; (2) For the sake of his community and nation; (3) For the sake of the Church itself; (4) which needs his moral and financial support. Plan to go to church regularly and read your Bible daily.

### Vacationer Reported Drowned Wednesday

A Virginia Beach visitor, Charles Paul Rauer, 28, of Detroit, Michigan, was reported drowned about noon Wednesday while swimming opposite the Ocean Ranch Motel at 32nd Street, according to a police report.

The drowning victim was on vacation here and experienced difficulty in the choppy surf just off shore. According to the report Rauer was being towed in by another swimmer but he fought off his rescuer and his body could not be located.

The Virginia Beach-Rescue Squad and the Coast Guard began an immediate search of the area but had not recovered the body late Wednesday.

Rauer is the son of Mrs. Elsie Rauer, also of Detroit. He was reported. He was here on vacation with a long time friend, Clifford Kuntz, of Toledo, Ohio, according to the police report.

### Some Oppose Re-zoning of Surf Beach Club

Some residents have lined up to oppose the re-zoning of the Surf Club property which is being sought by the new owners for future development of the property. The opposition was voiced at a Princess Anne County Planning Commission meeting the past Monday night when an application to change the property to T-2 (transitional) for tourist accommodation and restaurant.

The new owners, John B. Smith, V. B. Hobson, Jr., and Andrea M. Hodgson, were announced about a month ago. The sale, to be completed this month, was reportedly a \$270,000 transaction.

Opposition came from residents of North Virginia Beach, who generally felt that a change in the present zoning of the Surf Club property would open the doors to additional commercial zoning in the primarily residential section.

The decision of the Commission should be revealed next Monday when its recommendations are made to the County Board of Supervisors in their regular meeting.

### Shriners Leave Beach After Fine Meeting

A highly successful meeting of the Mid-Atlantic Shrine Association in Virginia Beach concluded last Saturday and probably the largest and most colorful parade to be staged in Tidewater Virginia will live long in the memory of local residents and the visitors who witnessed it.

Approximately 12,000 shriners and their families were here for the three-day meeting of the association which was the 14th annual convention of the group.

Fun was the keynote of the meeting as it, usually is when Shriners get together. The meeting here brought together members of temples located in Virginia, West Virginia, Washington, D. C., Baltimore, Maryland, Pennsylvania and New York.

The big parade Saturday was probably the biggest such event ever staged in this area. It lasted a full three hours. Included in the parade were 72 units from 16 temples.

Winners in the competition included Benl Kedem Temple, Charleston, W. Va., patrol; Salaam Temple, Newark, N. J., oriental band; Khedive Temple, Norfolk, drum and bugle corps; Acca Temple, Richmond, band; and the outstanding unit was the Oriental Band of Salaam Temple.

The Shriners were joined here by Mecca Temple of New York City. Mecca is the original temple in the United States having been organized in 1870.

Khedive Temple of Norfolk served as host temple for the meeting with Joe Pinnell serving as general chairman. J. Ronald McLean is the Potentate.

### Night Classes Scheduled for P.A. High School

Evening courses in the extension program of the College of William and Mary are scheduled to be held again this year at the Princess Anne High School. It has been announced.

Many of the courses to be taught at Princess Anne High School are designed for the high school graduate not contemplating going to college.

Classes will last for three hours each evening of the schedule. Those interested may enroll at the school on September 24 or September 26.

### Civil Defense

Starting next Sunday the Nation will observe "Civil Defense Week" and plans to observe the week here have been announced by Lewis E. Smith, civil defense director for the City of Virginia Beach.

Smith announced that next Thursday, September 19, one hour of free movies will be shown in the Community House. One film will deal with the atom bomb and another will deal with the effects of an atom bomb.

It was also announced that plans to show the film in the Virginia Beach High School are being arranged.

### Seahawks Away, Cavaliers Home In Grid Tilts

King football returns to the local scene this week as both the Virginia Beach Seahawks and the Princess Anne Cavaliers open their 1957 seasons with Friday night games.

The Seahawks will open away from home playing Deep Creek at Deep Creek under the lights with kickoff time set for 8:00 p.m.

Princess Anne's Cavaliers will entertain at home in their opener against a highly regarded Great Bridge team that boasts of several stars.

Both teams will start the new season with new head coaches. George Tepe is at the helm of the Seahawks, machine having succeeded Fred Isaacs, who resigned after last season.

The Cavaliers will be guided this year by Pete Sachon, the State's most successful high school coach. Sachon has had three undefeated seasons during the past three grid campaigns. The three undefeated seasons for Sachon were divided between Wilson and Norwich high schools.

Both Virginia Beach and Princess Anne have lost some regulars from last year, but the Cavaliers are generally better fortified with returning lettermen.

Sachon can present an all-veteran backfield made up of Stan Fischer at quarterback, Ralph Weatherington and Gregory at the halves, and Allan Bamforth at full.

Sachon noted that he will have a light team as compared to his past clubs and therefore is expected to have a varied offense. "This," Sachon said, "makes more opportunities to make mistakes."

On the other hand Tepe at Virginia Beach has a rebuilding job to do since he lost many of last year's regulars. One of the hardest spots to fill will be fullback where Tommy Barnes cavorted last year.

However, both Virginia Beach and Princess Anne have shown lots of hustle and spirit in pre-season work and the forthcoming season should be an interesting one.

### FUNDS ASKED WOULD LOWER TOTAL FEES

Assistant School Superintendent Elmer Tarrall requested an appropriation of City Council Monday that could be used to eliminate certain student fees now being charged in the city's two schools.

Tarrall told City Council that it would require approximately \$3000 for each of the two schools to eliminate certain student fees now existing and which are not in line with some other localities.

When questioned Tarrall cited as examples fees now charged to students that are not charged in Portsmouth or Norfolk. These were \$1.50 for student library; \$1.50 for art; 1.50 for mechanical drawing; and 1.50 for shop.

Tarrall pointed out that the elimination of these fees would not affect certain other fees as rental of band equipment and furnishing towels by the school. He said it would not affect the rental book fee, either.

After hearing Tarrall discuss the various school fees and make his request for funds, Council unanimously adopted a resolution instructing the city manager to see whether funds are available either in the school budget or the general fund to take care of the student fees. It was pointed out that a figure is usually included in school budgets for this purpose.

In other action the Council adopted a resolution naming the Princess Anne Circuit Court to appoint a board of equalization, a more apparently anticipated grievance from the general reassessment of real estate now being made here.

Approved negotiation of a contract under which Princess Anne County would pay Virginia Beach \$7,200 a year for fire protection the resort furnishes to county areas outside the Virginia Beach city limits.

Adopted a resolution congratulating the Mid-Atlantic Shrine Assn. Inc. for the annual convention held here last week and thanking the organization's convention committee for selecting Virginia Beach as the convention site.

Voted to allow an expenditure of \$1,500 for air conditioning in the new public health center, now in the final stages of construction. Reappointed Dr. W. L. Taylor and Hugh Kitchin to the School Board.

## TOGETHER

Every experience means more when it is shared. When father, mother and children go to church together they are sharing a beautiful experience. When they sing the songs of the gospel, read the Scripture, listen to the sermon, unite in prayer, they are adding to the joy of being together. When they open their hearts to God and pledge allegiance to Him, family life is strengthened. The "togetherness" reaches out to include fellowship with others.

Young people who grow up in the Church, who have a truly Christian home, are blessed with a tremendous advantage. They have learned to work and live with other people for the glory of God and the advancement of His cause. There is strength in the very thought of uniting in work and worship.

Together—what a difference it makes! Does your family go to Church together?

## EDITORIALLY SPEAKING

### Fewer Student Fees Would Be Welcomed

The suggestion made to City Council last Monday by Elmer Tarrall, assistant superintendent of schools for Virginia Beach, that funds be made available to the two city schools in order to eliminate certain student fees now being charged the individual students is definitely a step in the right direction.

Tarrall pointed out that many of the existing fees are sometimes taken care of in the school operating budget, but that this was not the case here or in the county. He told the Council that certain of the fees that he referred to were not charged in schools in nearby Norfolk or Portsmouth and in many areas of the State.

We like the spirit in which Council ac-

cepted the suggestion by Tarrall and its decision to try to find the necessary funds in the present school budget or in the general fund.

We know that it would be a welcome relief to many parents if a majority of the present student fees could be eliminated. We believe that Council intends to do just that if the necessary funds can be found.

The idea also reveals that Tarrall is going about his work in a manner that will benefit pupil, parent and the school system while bringing uniformity in the schools. It shows a sense of fairness and good planning on the part of the school administration.

### A Tribute To The Shriners

Last week the City of Virginia Beach played host to approximately 12,000 Shriners representing 16 temples within the Mid-Atlantic Shrine Association. Their visit here was a festive one and one that will long be remembered by all who viewed the frolics three days of the Shrine convention.

The Shrine convention was, without a doubt, the largest single convention Virginia Beach has ever experienced. From all reports Virginia Beach did its part to make the Shrine's visit a pleasant one. However, that should be expected of our people, but the real point was the manner in which the Shriners entered into the spirit of the convention.

The Shriners to a man were a happy-go-lucky lot and they were bent on having a good time at Virginia Beach. It can be said

that every Shriner wore a smile and was spreading goodwill at all times.

It was a fine convention, we believe, from very standpoint. We know from the reaction of many of the Shriners that they enjoyed the Virginia Beach meeting and will be happy to come back again. As conventions are judged the one just held here was a huge success.

We believe that the enjoyment and success of the recent Shrine convention is due in major part to the Shriners, themselves. They conducted themselves in such a manner that Virginia Beach and its Citizens gained a lot from the enthusiasm and happiness displayed by these men. It is a tribute to a fine organization to conduct a convention, designed primarily for fun and relaxation, to leave such a favorable impression on the citizens of the community in which they meet.

### Civil Defense Week

Next week has been designated "Civil Defense Week" throughout the Nation and it would be well for all of us to pause and reflect on this important subject. It is felt by many that most of our citizens take civil defense all too lightly.

In observing next week local civil defense officials have arranged programs to bring home the fact that civil defense is a most important function of our lives. Civil Defense Director Lewis E. Smith of Virginia Beach has announced that two films will be shown here.

On Thursday, September 19, at 8 p. m. a film on the atom bomb will be shown in

the Virginia Beach Community House. Following this film will be one on the effects of such a bomb and the role civil defense would play in such an event.

Smith also plans to show the films to students and teachers in the Virginia Beach High School. The Director states that the youngsters are more interested and concerned in the civil defense program than adults.

We should not brush civil defense aside. There may be a day when we will wish we had taken a more serious view of this program. Let's hope that day never arrives but let's be prepared just the same.

**Oceana Drugs Celebrating 3rd Anniversary**

There is a birthday celebration going on in Oceana with the celebration of the third anniversary of the founding of Oceana Drugs in that fast growing community.

They are celebrating with a big birthday party to be held on Saturday, September 14, from 10 o'clock in the morning until 8:00 p.m. that night.

Oceana Drugs was founded in August, 1954, by the present owner, John S. McFall, Jr. and a partner. The business is now owned by McFall.

McFall is become widely known since coming into this area. He is a graduate of the Medical College of Virginia pharmacy school and served for about three years at Riverside Hospital in Newport News before opening Oceana Drugs.

McFall is noted for his thespian activities as a member of the Virginia Beach Little Theatre. He is a past president of the Oceana Lions Club.

Oceana Drugs was the first such store to be established in Oceana and its business has been built on a policy of interest for the customer's welfare first. The store has a homey, old fashion air about it which patrons seem to like.

Besides McFall the store is managed by R. G. Walker, who is a veteran drug man having been associated with McKesson and Robbins for a number of years. Ronald Beaver serves as the other pharmacist.

Other employees at Oceana Drugs include Mrs. Jean Higgins, fountain manager; Mrs. Doris Vassie, Mrs. Blanch Young, Mrs. Ruby White, Mrs. Catherine Trower, Mrs. Estelle Cook and James Trant. Mr. John S. McFall, Sr., is always available to help out in any department that he is needed.

Prizes galore are offered at the birthday party Saturday. One of the feature prizes is a 14-inch portable TV set. Also listed as prizes are a silver service, Hi-Fi sets and dinner sets.

Oceana Drugs is known as "Your Friendly Service Drug Store" and it is prepared to live up to that slogan.

**IMPROVED FOR 1957 WITH DE-HYDRATED 'ROCKET 309'**

VIRGINIA BEACH, VA.—Hundreds of Virginia Beach hotels, motels and household consumers have just completed the 1956-57 heating season using high quality fuel oil treated with "Rocket 309," the revolutionary new additive developed and exclusively distributed by Atlantic Fuel Oil Co. Results have been amazing. Household consumers have burned up to 30 per cent less oil than in past winters.

**Virginia Beach First With New Fuel—Saves Over 20%**

One of Virginia Beach's major suppliers of Household Fuel Oil now has proven record of Fuel Savings to its regular customers.

George Gilliam, Jr., operator of Atlantic Fuel Oil Co., announced startling results obtained from customers who used High Quality Fuel Oil with "Rocket 309" during the 1956-57 heating season. "Some customers," Gilliam says, "burned 24% less than in 1955-56."

Atlantic Fuel Oil Co., introduced Premium Fuel Oils and Kerosene at REGULAR Prices last fall. They now announce a new improved additive - "Rocket 309." This should give even better re-

sults for 1957-58," states Atlantic. "ROCKET 309" is added by precise measure to every gallon of fuel oil and kerosene delivered by Atlantic Fuel Oil Co.

"The additive makes possible economy in fuel oil consumption in that it causes the oil to burn more efficiently and at the same time eliminates soot, sludge, water and electrolytic corrosion," according to Gilliam.

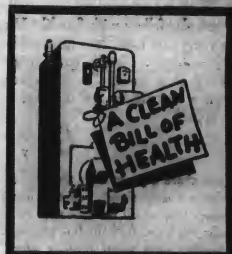

Full information on this amazing new development is available by writing or calling Atlantic Fuel Oil Co., Virginia Beach, Phone V. B. 2300. Collect calls accepted from Norfolk Phones.

Now for 1957 Atlantic announces a still more Powerful Additive — "Rocket 309." The new treated fuel has a proven record of savings in heating costs averaging 28% over conventional fuel oil and at the same time eliminates soot, smoke and condensate.

New Erie Dehydrators, the first in Tidewater, have been installed on all Atlantic rolling stock to provide a scientifically controlled filter system similar to those used by airlines to remove impurities and condensate from aviation fuels.

## Mrs. Richard Everett to Entertain Teachers, Parents

Mrs. Richard Everett, principal of the Everett School, plans to entertain her teachers and the parents of her pupils, at tea in the ballroom of the Cavalier Hotel on Tuesday, October 8th at 3:30 p.m. Long established as an annual event at the beginning of the term, the entertainment gives the parents and teachers an opportunity to meet informally.

Beginning in 1924 on Atlantic Avenue with only eight pupils Everett has grown with Virginia Beach. It has been in its present

location in the quiet residential neighborhood of Linton Park since 1929 when this section with its tall trees and beautiful homes was out in the country. A rural atmosphere still pervades and every effort has been made to preserve the natural appeal of the setting. Everett has always placed emphasis on cultural subjects and this year has added an art department and a central library. French and music appreciation have been taught for some years, however the physical needs of the

children receive full attention. The large playground area to which new equipment is being added this year could accommodate twice the number of pupils at the school without crowding.

Troop 227, the Everett School Brownie Troop, meets weekly at the school and Everett has a Cub Pack as well. Transportation is provided from the school to the Gerry M. Ashburn Riding School where the children may receive expert riding instruction. This year plans are under way to re-establish monthly dancing parties for the higher classes.

A great believer in using every means available to enrich her students' learning experience, Mrs. Everett makes full use of modern teaching methods and standard national tests. She has been glad to receive letters from NATO families in England citing the fact that their children are well equipped to take their places again in English schools after several years at Everett.

The school, now in its 33rd year, begins with kindergarten and goes through the fifth grade. Registration day for the grades is Thursday, September 12th at nine o'clock, and the kindergarten children will be registered the following day at the same time. There will be two kindergarten classes and two first grades this year. Although their present enrollment is filled, the school is taking names for the 1958-59 term at the request of parents.

## Bristow Hardin Opens Music School Here

"So happy to make the change," states Mr. Bristow Hardin in announcing the opening of the Bristow Hardin School of Music now located at 313 35th street, Virginia Beach. Main factor which influenced Mr. Hardin to close his successful piano studio in Norfolk and take this important step, as he so aptly remarks "simply burned his bridges behind"—is the strong movement of population to Virginia Beach.

The new studio, modern in every detail, has been constructed adjacent to his residence on 35th street. Completely air-conditioned the studio consists of offices, classrooms and powder - rooms. Mr. Hardin said the classrooms are designed and outfitted to produce the finest acoustical effects possible. The larger classroom is arranged to accommodate 50 persons and will serve as the concert hall. Under the direction of Bristow Hardin and Richard Hardin, his son, the school will continue to serve their piano students in the Norfolk area.

A graduate of the Cincinnati Conservatory of Music, Bristow Hardin had the distinction of being the youngest student teacher and was made a regular member of the faculty at 18 years. Listed in Who's Who in Music, he has an impressive list of credits to his musical career including performing with the Cincinnati Symphony Orchestra, professor of music at William and Mary College, Norfolk division, and more recently has lectured and conducted piano groups for music teachers' work-shops at Madison College and Louisiana State University.

Mr. Charles Hardin will head the Harmony and Theory department of the new school. He is well-known at Virginia Beach for conducting classes in music appreciation at the Friends School and Everett School. Among the numerous plans for his students Mr. Hardin announces a unique and interesting series of concerts featuring 18th century music which will be performed on re-productions of instruments of that period. A graduate of William and Mary College, his musical background includes post - graduate study at Richmond Professional

BRISTOW HARDIN

Institute and the New School for Social Research in New York. Mr. Hardin established his original music school in 1919 and has successfully directed its operation since 1930 at 413 Boiesvain ave-

nue, in Norfolk.

In conjunction with their music studio, both Father and Son will conduct classes in music appreciation and direct choral music at the Virginia Beach Country Day School for Girls. Mrs. Mary Louise Cornick, who directs music at the Everett School, will also teach at the new studio.

Since the studio has only recently been completed Mr. Hardin said plans for an affair marking the official opening will be announced at a later date.

## Bell Tidings

A muscular fellow with fists like Virginia hams was letting everybody know how he could bend horseshoes with his bare hands. Finally, one weary listener managed to squeeze in a word. "That's nothing," he said. "My daughter can tie up ten miles of telephone wire with her chin!"

If you share a party line, the keynote to good telephone service is a little simple courtesy. And party line courtesy involves only small things—such as replacing the receiver gently when you find the line in use. Or releasing the line reasonably soon when another party is waiting to use it. Or spacing your calls so that others can make or receive their fair share, too. Good neighbors, you might say, help to make good party line service even better.

They, too, gave up. The tablet was put in a museum and tagged, "Mysterious message from the past"—until one day a little boy came along and read it right off: "O rest a bit for 'tis a rare place to rest at."

AVAILABLE: receptionist with perfect memory, splendid disposition, works 24 hrs. a day (no vacations), never sick; "salary" required less than 50 cents a day.

Too good to be true? Not at all—the "receptionist" is the Automatic Answering Device, which keeps your telephone door open when your office is locked. "She" automatically answers the phone, delivers your recorded message, and will record the caller's message for you. "She" is just one of many telephone aids to more business profits. A call to your C. & P. Telephone Company business office will bring you all the details about installation.

For men only: if your wife has a birthday this month (or if you're celebrating a wedding anniversary) why not get her the gift that gives pleasure every day, month after month? She'll love the convenience of an extension telephone in color in bedroom or kitchen. Order now—pay later on your regular telephone bill.

## Notes From Your County Agent

BY E. R. "DICK" COCKRELL, JR.

**Furnish Crop History Early**  
"Soll Bank Farmers" urged farmers who wish to take part in the 1958 winter wheat Acreage Reserve program were urged today to bring information on their farm's past production history to the County Agricultural Stabilization and Conservation Office.

W. F. Hanger, Chairman of the County ASC Committee, said that each producer is responsible for furnishing the information needed to establish the farm's Soll Bank base, a new 1958 feature of the Soll Bank Acreage Reserve program. A base provision is already in operation under the Soll Bank's Conservation Reserve program.

"The Soll Bank base for indi-

vidual farms will be established by the county committee primarily on the basis of the average acreage of land devoted to Soll Bank base crops during 1956 and 1957," Mr. Hanger declared. "These 'base' crops, in general, will be all crops produced for harvest on the farm except hay crops. The Soll Bank base must be established before a wheat Acreage Reserve agreement can be signed.

"Where a farm already has a 'base' established under the Conservation Reserve program, that base will apply," he said.

The signing under the 1958 wheat Acreage Reserve program will start on August 26 and will close on October 4. In the program ag-

reement, participating farmers will agree to limit their harvest of Soll Bank base crops to a "permitted acreage," which will be determined in general by subtracting the number of acres in the Acreage Reserve from the total in the Soll Bank base. If the farm is also included in the Conservation Reserve program, the required reduction in harvested acres below the Soll Bank base will generally be the total of the acres in both Reserve programs for that year.

Farm per-acre rates of payment on land included in the Acreage Reserve program will vary from the average county rate of \$29.00 per acre primarily according to the relative productivity of the land. A 10 per cent premium above their regular 1958 compensation rates will be paid farmers who took part in the 1957 Acreage Reserve program if they put the identical land in the Acreage Reserve program for 1958.

ades so widely used in trading. So far, consumer grades have been formulated for only 11 vegetables and one fruit. The continuous inspection services should encourage the use of these grades. If retail dealers and family food shoppers both find the consumer grades helpful, grades will be formulated for other produce.

The top consumer grade for most products is U. S. Grade A, which corresponds generally to the wholesale grade, U. S. No. 1.

**Consumer Grades for Fresh Fruits and Vegetables**

Now that so many fresh fruits and vegetables are prepackaged, it's going to be easy to carry the U. S. grades indicating quality on the wrapping or the package.

Recently the U. S. Department of Agriculture offered a continuing inspection service to the fruit and vegetable industry to lend support to the use of consumer grades. Consumer grades could give household food shoppers the same advantage in purchasing fresh fruits and vegetables that they now have in purchasing meat and poultry in many markets — or the same advantage that wholesale buyers of fruits and vegetables have in the wholesale gr-

## and give the kids a break

Schools are now in session. An additional 2,000 to 2,500 students have been added to the Princess Anne-Virginia Beach system, bringing about a record enrollment of 19,000 or more. What does this mean to you as a driver? It means increased chances of serious accident or death to school children by careless driving.

We make an urgent appeal to every driver to keep the kids in mind by knowing and practicing the ABC's of safe driving at all times. You can prevent disaster by watching out for children near schools. As the youngsters head to class, safe driving is especially important in school zones. But remember, on any street, there may be children on the way to or from school or at play.

Do your part by making every day, safe-driving-day. Above all, expect the unexpected! As a further reminder, we urge you to be safe and not sorry - be always ready to STOP for kids on the go

## Robert Hall Opens New Outlet Today

Robert Hall's new showroom on Virginia Beach Boulevard opening today.

Formal ribbon-cutting ceremonies at noon tomorrow will officially open the magnificent new Robert Hall super-salesroom, located at 6380 Virginia Beach Boulevard, just east of Thomas Corner. Participating in the ceremonies will be Vice Mayor George R. Abbott — representing Mayor Duckworth of Norfolk; Honorable Frank Dusch, Mayor of Virginia Beach; and Mr. Donald W. Shriver, Executive Manager of the Norfolk Chamber of Commerce. Representatives of the Robert Hall New York office will also be present to assist in the ceremonies.

Free gifts will be distributed to

all who attend the opening-day festivities: retractable ball point pens will be given to adults and teenagers; equipped pencil boxes to children accompanied by adults; and for the toddlers (accompanied by adults) there will be bright colored balloons printed with the famous Robert Hall Jingle.

Highlights of the day will be an award each hour on the hour — from 12 noon until 9 P. M. Each hour a lucky man or woman will be awarded a suit or coat of his (or her) choice. Any adult can enter this contest . . . simply by stopping in at the new Robert Hall salesroom before 12 noon,

filling out an entry blank and depositing it in the entry blank — and need not be present, when the winners are selected, to win. Robert Hall will celebrate the grand opening of the new salesroom with a 3-day bargain jam-boree, presenting the newest trends in Fall clothing for men, women and children — tagged at special low "opening-party" prices.

To welcome the 25th store in the nation-wide chain, the Robert Hall salesroom at Boush Street and Mowbray Arch in Norfolk, and the store at 919 West Military Road in Hampton, will join in the three-day bargain spree.

## Churches Aid Children's Fund

Among contributions received by the Children's Home Society, at least four churches are included, according to a report from Mrs. L. Crawford Syer, local public-relations chairman.

The Galilee Episcopal Church of Virginia Beach has supported the drive with a contribution from its discretionary fund, according to the Reverend Francis Berkeley. The Reverend Henry C. Barton, of Eastern Shore Chapel, has reported that the collection from one service during September will be pledged toward this very worthy cause.

Rev. G. Edward Hughes of London Bridge Baptist Church reports that this congregation has set aside a semi-annual contribution for the maintenance of the Children's Home Society.

And Old Donation Church of Princess Anne County has voted to contribute at least one collection made by communicants, according to a report from Reverend Beverly D. Tucker, Jr.

The Campaign, a solicitation for the operation of the state's oldest and largest adoption agency, began on September 9, and will last until the end of this week.

**After School—Time For Coffee, Cookies And Chatter**

AFTER school is a very special time of day for mothers. That's when they sit down with their cup of coffee and hear all about the day's doings. And to make this hour extra special for the young people, a brimming cookie jar of Chocolate-Praline Nuggets fills the bill.

Cookie recipes are treasured items for mothers, and this one should get a gold star for its marvelous texture, as well as flavor. What could be better than old-fashioned praline chewiness combined with that semi-sweet chocolate flavor? Well, you'll have your answer after school when the jar is raided.

Lots of home-made cookies and the fragrance of fresh coffee brewing—there's a combination that will bring your young folk home on the run!

**Chocolate-Praline Nuggets**

2 eggs  
2 tablespoons lemon juice  
2 teaspoons grated lemon peel  
1 cup flour  
1½ teaspoons baking powder  
½ teaspoon salt  
¼ teaspoon nutmeg  
1 cup salted peanuts

Cream shortening, peanut butter and sugar together until light. Add eggs one at a time, beating lemon juice and lemon peel. Sift dry ingredients together. Add to shortening-sugar mixture. Stir in peanuts. Mix well. Drop by teaspoonsful onto greased cookie sheet. Bake in a moderate oven (350°) 12 minutes.

Don't forget to keep some of these favorite cookies for after-school feasting, but of course, the whole family is likely to raid the cookie jar most anytime of day.

Bye Now—I'd better get busy and fill my cookie jar, the grandchildren are coming.

**Chocolate Refrigerator Cookies.**

½ teaspoon soda

1 cup finely chopped pecans

## FORT STORY TELLINGS -

### BOXING COACH

Specialist, Second Class Charles J. Rivers, maker of ring champions and a champion in his own right in the boxing world, took over coach of Fort Story's boxing team recently.

Rivers, formerly Joe Louis' sparring partner, won the Second Army's boxing Championship title at Fort Lee, Va., in 1947. He started his boxing career in New Orleans, La., with scholastic teams and has coached championship boxers in every theater of operation including Korea.

Rivers hopes to build a 16 man squad from aspirants from Fort Story's units. They will compete in local and area inter-service tournaments later this season.

### RECRUITERS VISIT

The Transportation Corps struts its stuff last Friday as two dozen US Army Recruiters from the Piedmont-Tidewater Area visited Fort Story for an inspection tour and orientation of Transportation Corps equipment.

The Recruiters inspected the DUKWs and made a trip in them out to visit the Army Vessel FS 313 which was anchored off Fort Story.

Aboard the FS, they were given a tour of the vessel by the Skipper, CWO Leroy Aford; discussed recruiting problems and listened to Guest Speaker Lieutenant Colonel N. E. Meyer from the General Staff of Fort Eustis. He spoke on the Transportation Corps, its equipment and activities.

The Recruiters lunched at the Headquarters 5th Transportation Terminal Command "B" mess hall.

### FORT STORY CLUB SETS FALL SCHEDULE

The Fort Story Officers' Open Mess, long a favorite gathering place for officers of the armed forces stationed in the Tidewater Area, has announced plans for an intensive Fall social season.

Highlighting the Autumn festivities at the club, according to manager Jack W. Keeney, will be cuisine prepared by Chef Oscar Robinson. Before coming to the

Story club, Peterson, who has fifteen years experience in fine cooking, was chef at the Princess Anne Country Club of Virginia Beach.

A new innovation at the Officers' Club will be Tea-Dances, starting at five-thirty on Sunday afternoons, to the music of the Will Decker Trio. Friday evenings will see a continuation of the popular Happy Hour and Buffet Dinner. Music for dancing and dining is offered on Wednesday, Friday and Saturday nights, while steaks, charcoal-broiled in the huge fireplace in the club's Colonial, are still a regular Wednesday night feature.

The Fort Story Officers' Open Mess is located near the West Gate of the post, off Highway 60. All officer personnel of the armed forces are invited to participate in the club's social activities. There is no membership fee for officers of the armed services.

The staff aide of the area's many military facilities find the Story Club's Balinese Room a delightful setting for luncheons and formal teas, in which the club specializes. The Balinese Room can accommodate parties up to 400.

### SHRINERS

The activities of this Transportation Corps post were inspected Friday by the more than 12,000 members of the Mid-Atlantic Shriners Association who held their convention last weekend at Virginia Beach.

The wives of the visiting Shriners made a two-hour tour of the post Friday morning. Lieutenant Otis Bowles acted as chief escort officer for the ladies.

In the afternoon two BARCs and two DUKWs were displayed to the Shriners at an armed services display at the Cavalier Beach Club. Chief Warrant Officer Anthony Zienk of Fort Story's 588th Heavy Boat Company accompanied the amphibious equipment, and furnished a commentary during the exhibit.

### RIVER CROSSING DEMONSTRATION

A detachment of Transportation Corps soldiers from Fort Story's 612th Amphibious Truck Company will participate in river-crossing demonstrations at Fort Belvoir, Virginia, this week.

The 21-man group, commanded by Lieutenant Harold Benson, is the second Story delegation to participate in the amphibious exercise at Belvoir this summer. The Fort Story troops will operate Landing Vehicles, Tracked (LVTs) in the demonstrations. The operations at Belvoir are

designed to test the best ways to move troops across rivers during assault operations. Bridges as well as amphibious vehicles will be utilized.

### CONINE TO SCHOOL

Colonel James C. Conine, deputy commander of Fort Story and the 5th Transportation Terminal Command, has been selected to attend the Management Problems Course for Executives at the University of Pittsburgh.

The eight week course, which will get underway on September 23, is regarded as one of the outstanding courses in the country in its field.

Colonel Conine, a graduate of Knox College, Galesburg, Illinois, was Chief of the Transportation Branch, Headquarters, Allied Forces in Southern Europe, before his assignment at Fort Story.

### A. P. HILL

A week's bivouac at Camp A. P. Hill, Virginia, will see more than 300 officers and men of Fort Story's 14th Terminal Battalion for-

ake their DUKWs and Landing Craft to brush up on their combat proficiency.

The battalion, commanded by Lieutenant Colonel Joseph E. Bostick, will spend the week in individual and team training under simulated combat conditions. Included in the training will be night problems, marches, and other facets of land warfare. The time devoted to combat training is in line with the Army's policy that the modern soldier must not only be a specialist, but he must be able at all times to defend himself from the enemy.

In charge of the preparations for the A. P. Hill encampment is the Battalion S-3 (Training) Section. Lieutenant John P. Kiefer is the battalion S-3.

### SPEIR FIELD

Ceremonies at Fort Story Wednesday, September 11, will mark the naming of the Fort Story airstrip in honor of the late Lieutenant Colonel Frank Speir.

Major General Paul P. Yount, Chief of Transportation, US Army, will be the main speaker at the dedication, which will be attended by Colonel Speir's family and

many of his friends.

Colonel Speir, who died in the wreck of his airplane in 1956, was one of the Transportation Corps most decorated officers. A graduate of the Massachusetts Institute of Technology, he was one of the Army's foremost authorities on amphibious vehicles.

The commanding officers of the surrounding military bases, and local civilian dignitaries have been invited by Colonel George E. Woods, Jr., Fort Story's commanding officer, to participate in the dedicatory activities. The 384th Army Band from Fort Eustis will furnish music for the dedication.

Private Harold W. Snider was named honor graduate of the Amphibious Truck Drivers Course No. 67 at Fort Story Friday.

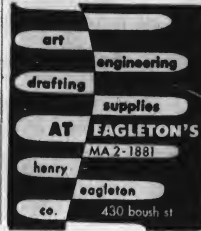

Private Snider and his 19 fellow students received their diplomas and congratulations from Colonel George E. Woods, Jr., Fort Story's commanding officer.

The Amphibious Truck Drivers course, conducted by the 461st Amphibious Truck Company, teaches Transportation Corps soldiers the operation and maintenance of the Army's famous

DUKW. Graduates are assigned to one of the Army's eight Amphibious Truck Companies, six of which are stationed at Fort Story.

Lieutenant Colonel Joseph E. Bostick, commanding officer of the 14th Transportation Battalion, opened the ceremonies and introduced Colonel Woods to the class.

Captain John B. Thomas is the commanding officer of the 461st and Second Lieutenant John L. Nowlan is the training officer for the company.

# Is it Really Goodbye ?

This little girl may never see her mother again.

She *could* be your child.

Or you *could* be behind the wheel of the car that snaps the thread of her life, or scars and maims and pains her until the end of her days.

It's not pleasant to think about it — but it *IS* time to think about it.

Every morning, millions of freshly-scrubbed little girls and boys set out for school — memory work done, written work ready to hand in, some with an apple for teacher and none with a care in the world. And every evening, some of them fail to come home. They've said their last goodbye to "Mommie."

During the last school year, over 3,000 children of kindergarten age through fourteen were killed in accidents involving motor vehicles, and the National Safety Council estimates that more than

150,000 others were injured. Legally, in many cases, it was "their fault." This doesn't make the tragedy any less. And besides, when children are hurt, it's never really "their fault." Children aren't accountable for the grim things in life. They're made for laughter and fun and love.

Every person who drives a car should think about this. Drive carefully, for in a careless moment, you may take away a small life . . . break a mother's and father's heart . . . and break your own heart, too.

### Funeral Rites Held Wednesday For Harwell E. 'Hal' Halstead

Funeral services for Harwell E. Halstead, 58, who died last Saturday evening, were held Wednesday morning at the Virginia Beach Methodist Church. The Rev. C. O. Kidd, pastor of the church, officiated and interment was in the Charity Methodist Cemetery.

HARWELL E. HALSTEAD

Mr. Halstead, who served as city sergeant for the City of Virginia Beach, died suddenly at his home last Saturday apparently from a heart attack. Mr. Halstead had previously served as vice-mayor and as a city councilman here.

A native of Princess Anne County, he was the son of the late A. O. and Mrs. Mary C. Cappe Halstead. He attended Mary High School when the family moved to Norfolk to live. He had resided at the beach since 1935.

One of his first business associations was with the Seaboard Air Line Railroad, after he attended the Norfolk Business College. Before entering politics and winning election as a town councilman in 1944, he was employed by the Consolidated Coal Co., with offices in Norfolk. He maintained an interest in the business until 1948, at which time he went into business for himself. He operated the Halstead Variety Store.

Halstead served on the Beach Council from 1944 to 1952, when the community was a town. For seven of these years, he was vice mayor.

He was named city sergeant in 1952 by Princess Anne County Circuit Court Judge Floyd E. Kellam and when the resort left town status to become a city of the second class. In June, 1948, he was re-elected for a second four-year term on the Council, on the organization ticket.

He was a former member of the board of stewards of Virginia Beach Methodist Church, and of the Rotary Club at the beach. During World War II, he served as chairman of fuel oil of the Princess Anne County War Price and Rationing Board.

He headed various Council committees, including health and sanitation, and was one of the prime-movers in establishing the Virginia Beach Erosion Control Commission.

He was a member of the Advertising Committee of the Beach Chamber of Commerce, president of the Virginia Beach Police and Fire Departments pension system, a member of Lodge No. 7, Fraternal Order of Police Associates, and a honorary member of the Virginia Beach Volunteer Fire Department.

Surviving are his wife, Mrs. Thelma Smith Halstead; two sons, Robert K. Halstead of Virginia Beach; Harwell E. Halstead Jr., of Port Huemene, Calif.; one daughter, Mrs. R. E. Mahon of Virginia Beach; three brothers, E. S. Halstead, Earl F. Halstead, both of Virginia Beach, and William Fred Halstead of Los Angeles, Calif.; one sister, Mrs. Ruth Thomas of Norfolk; eight grandchildren and several nieces and nephews.

Active pallbearers were E. H. Church, Floyd E. Kellam, Sidney S. Kellam, James G. Kontopoulos, Charles C. Manson, and R. R. McChesney.

Honorary pallbearers included Paul W. Ackles, Jr.; Clarence O. Barco, Robert O. Barr, Jr.; E. B. Bayne, George S. Brown, E. A. Culverhouse, F. M. Durham, Jr., Frank A. Dusch.

### Utility Group Meeting Here At Cavalier

The Maryland Utilities Association composed of representatives of public utilities of Maryland and the District of Columbia held their 33rd Annual Conference at the Cavalier September 13th, 14th and 15th.

On the program for the two days business sessions were addresses on subjects of interest to industry and the states. Dr. Raymond Rogers, Professor of Banking, Graduate School of Business Administration, New York University, and John R. Frederick, Director of Industry Development, Wisconsin Power and Light Company spoke on last Friday's program.

The Honorable H. Lester Hooker, Commissioner, State Corporation Commission of Virginia, opened the business session Saturday morning speaking on "Rights of States Being Sabotaged." Representative DeWitt S. Hyde of Maryland's Sixth Congressional District, concluded the program with his talk on "Regional Approach to Local Problems."

The convening association was organized in 1922 for the purpose of exchanging ideas of mutual interest. This is the 10th successive year that this association has held its annual meeting at The Cavalier. More than 400 members and guests attended.

### Home Society Drive Getting Strong Support

Mr. A. Gordon Stephenson, General Chairman of the Children's Home Society drive for funds, has received reports from his Chairmen that the drive has received good support in Virginia Beach, where Mrs. D. H. Clark is in charge of the drive, as well as in Princess Anne County where the house to house campaign has been in progress for a week. There are still loose ends and cards to be picked up, and Mr. Stephenson asks that the public be as helpful as possible, for in the rural areas especially, repeated trips are time consuming and expensive.

Mrs. J. R. Land, Chairman of Lynnhaven District (excluding North Virginia Beach) has very nearly completed her canvass and has reported excellent response in her section where there are a great many housing developments.

The appeal of this drive is based on a fundamental interest and sympathy of people in general for homeless children. The work of this adoption agency, the oldest and largest in the State of Virginia, has become a symbol of infant adoption. The Society receives many more applications for babies than they can take care of. Last year their budget permitted them to care for about three hundred and fifty babies. Every dollar donated can be put to work immediately.

### Another First For Va. Beach

What probably is a first for any city and what surely is news is that an out-of-state city's Chamber of Commerce selected Virginia Beach to hold a one day meeting of its organization.

Yesterday (Wednesday) approximately 50 members of the West Shore Chamber of Commerce from Lemoyne, Pennsylvania, met at Virginia Beach at the Cavalier Club.

President Harold B. Kellam of the local Chamber had lunch with the group as did John W. McCombs, chairman of the Virginia Beach Convention Center Committee.

The meeting was the annual meeting of the Pennsylvania group. Lemoyne is located near Harrisburg.

### Kiwanians Present Check

Henry I. Jaffe, left, of the Virginia Beach Kiwanis Club is shown presenting a check for \$580.60 to Walter C. Chapman, State Director of the Virginia Society for Crippled Children. The check was presented by the local Kiwanis Club representing profits realized from a peanut sale conducted here on July 3.

### Local Kiwanis Club Donates Sale Profits

A check for \$580.60 was presented to State Director of the Virginia Society for Crippled Children and Adults by the Virginia Beach Kiwanis Club at its meeting last week.

The check represented profits realized from a peanut sale conducted by the local Kiwanians on July 3. The check was presented to Walter C. Chapman, who also served as principal speaker at the meeting. The speaker was presented by Kiwanian Henry I. Jaffe, program director.

Chapman, in his talk, reviewed the progress being made at the new children's camp, Camp Easter Seal at Newcastles, Virginia and the program combining recreation and rehabilitation now available to crippled children throughout the State. He told the Kiwanians and guests that the camp is now 50 per cent completed.

Special guests for the meeting included Donald Rhodes, Norfolk; Miss Ruth Sewell, Miss Harriett Aitcock, Mr. and Mrs. R. H. Owen, the Rev. S. H. Strieby, Commander W. M. Brown, Ronald Clark, and Mrs. H. I. Jaffe.

MEETING OF D.A.R.  
The monthly meeting of the Princess Anne Chapter D.A.R. will meet Saturday, September 21, at the home of Mrs. D. Y. Malbon, London Bridge, for a pot luck luncheon at 12:30.

### Cavaliers and Seahawks Face Tough Foes

Probably the biggest games of the year are on the schedule this week of the Princess Anne Cavaliers and the Virginia Beach Seahawks. Both schools play grid teams rated high in area football circles.

The Cavaliers meet the Norview Pilots in Norview on Friday night while the Seahawks play host to the always powerful Churchland Trucks under the lights in the Virginia Beach Stadium.

Princess Anne's Cavaliers, under their new Head Coach Pete Sachon, won their opener last week in defeating Great Bridge by a score of 14 to 7. It took 10 minutes to help the Cavaliers to their victory. It enabled them to tie their victory mark of last year when they won only one contest.

Finance Firm Pays Quarterly 10c Dividend

Newport News, Va.—A quarterly dividend of 10c per share will be paid Eastern Finance Corporation stockholders of record as of September 27. It was announced today by F. Wallace Bowler, president, at the corporation's home office in Newport News, Virginia.

The dividend will be paid on the corporation's Class A common stock, which was first offered for public sale on January 1, this year.

In making the announcement, president Bowler pointed out that this is the third consecutive quarterly dividend to be paid by Eastern in the three quarters since public offering of the stock. It is the intention of the Board of Directors, he said, to maintain minimum quarterly dividends of 10c per share.

In the past nine months, Eastern opened offices in both Raleigh and Durham, North Carolina, where it operates as N.C. Finance Corporation.

The Princess Anne County Board of Supervisors Monday approved a re-zoning application for the Surf Club property in North Virginia Beach thereby clearing the way for development of the property into a "club type" motel.

The Board voted unanimously to change the zoning from Residential Duplex Two to Residence Duplex Two with Motel, Tourist and Residence. The vote of the Supervisors backed the recommendation of the Princess Anne Planning Commission.

A small delegation had opposed the change in zoning at an earlier meeting of the Planning group, but one of those objecting at that time had since changed his mind and now favored the change, according to her attorney, Dudley Cooke.

John B. Smith, who along with V. B. Hodgson and Andrea Hodgson, are planning to develop the property, presented a petition signed by 181 residents of the area in support of the change.

Another matter that brought out controversy was objections to the Canine Country Club located on Little Neck Road in the Lynnhaven Magisterial District. Petitioners complained the kennels there were a nuisance and a disturbance in the neighborhood. The Board declined to take a public position on the matter and referred it back to the parties involved.

In other action the supervisors: Took under advisement a resolution that would give free special license tags to volunteer firemen in lieu of regular county tags, which cost \$5 each. The

Followers of the Cavaliers are apprehensive over the forthcoming game with Norview, the team has Sachon coached to two previous undefeated seasons. The Cavaliers will have to be up for the game since Norview has many veterans back, although they lost their star, Johnny Watkins, of last year.

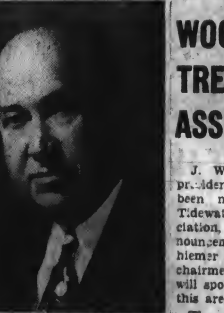

The Cavaliers looked sharp in spots in their opener, but Coach Sachon has been working them

### Plans Announced for New Motel By Surf Club Property Owners

The new owners of the Surf Club property in North Virginia Beach, given the green light by a decision of the Princess Anne Board of Supervisors in their rezoning application, announced Tuesday that construction of a new 84-unit cabana type motel is expected to get under way on December 1.

John B. Smith, Vivian B. Hodgson, Jr. and Andrea M. Hodgson, the new owners, said Tuesday that bids on the new motel facility will be advertised shortly in order to begin construction on or about December 1.

The new owners had applied for rezoning of the property some

### Civil Defense Film Will Be Shown Today

A civil defense film will be shown in the Virginia Beach High School this afternoon, it has been announced by Lewis E. Smith, local civil defense director.

The film this afternoon will be a short 30 minute film and is being shown as a part of National Civil Defense Week.

Tonight at 8 o'clock in the Community House a free hour of movies will be shown. One film will deal with the atom bomb and the other will show the effects of such a bomb and how civil defense plays a part in the aftermath.

All movies are free and the public is invited to attend, Smith said.

time ago and some opposition was raised by residents of the area. However, the Princess Anne Planning Commission recommended approval of the application.

The property occupies two blocks on the Oceanfront between 56th and 58th streets. The change in the zoning includes motel, tourist and restaurant clauses added to the present residence-duplex classification.

Architects for the new facility are Gamble, Pausal and Gilroy, of Fort Lauderdale, Florida. There will be 84 units in the proposed club-type motel. The new motel

resolution said the free tags would be in recognition of the services of the unpaid volunteers in safeguarding life and property.

Gov. Thomas B. Stanley to provide enough funds in the 1958-59 budget to allow full state aid to mosquito control. The law provides the state may pay a share equal to 25 per cent of mosquito-control funds raised locally, up to \$10,000 a year. In recent years, said the resolution, the Commonwealth has not appropriated sufficient money to meet that in this area.

### WOOD NAMED TREASURER BY ASSOCIATION

J. W. Wood, executive vice-president of Colonial Stores, has been named treasurer for the Tidewater Historic Drama Association, according to an announcement by Henry Clay Hoffmeyer and Sidney S. Kellam, co-chairmen of the association that will sponsor an outdoor drama in this area.

The association announced in July that it would undertake to sponsor an outdoor drama, possibly in the Virginia Beach area, with a target date set for July 1, 1958. The drama would be titled "The Confederacy" and will be written by Paul Green, noted author of "The Common Glory," "The Lost Colony" and "The Founders."

Along with the announcement of Wood's appointment as treasurer was one naming Alfred W. Craft, Jr. and Edward R. Amburn, both of Virginia Beach, to serve as assistant treasurers to Wood. Craft is a vice-president of the Bank of Virginia Beach and Amburn is an official of the National Bank of Commerce here.

Tidewater cities and counties have already pledged \$100,000 toward the staging of the new outdoor drama, and the remaining \$50,000 needed is being raised from private sources.

Some \$25,000 has already been pledged by the City of Virginia Beach and Princess Anne County, according to Kellam. A spokesman for the association stated Wednesday that the remaining \$25,000 would be solicited in November from other Tidewater establishments.

The drama will deal with the Confederacy and its significance to the South and to the nation as a whole. Since the three dramas mentioned above deal with early American history, it was

## Safety Posters Distributed to Area Schools

Development of a spirit of co-operation between all school children and the School Safety Patrol is the first aim of the Tidewater

Tidewater automobile Association will distribute large, colorful posters to schools in Princess Anne County urging youngsters to "Help Your Safety Patrol Help You." The posters are part of the regular monthly safety materials distributed to schools by AAA-affiliated Motor Clubs throughout the county.

"The record which the School Safety Patrol has made throughout the nation proves its effectiveness as a force for reducing traffic deaths and injuries among school children," Dey said. "However, the Patrols are not a police force. They must rely on voluntary cooperation from other boys and girls, and that can only come about when the youngsters understand that the Patrols are there to help them."

The Motor Club official asked parents to stress with their own children the need for obeying signals of the Patrols as a supplement to the teaching they will get in school. He pointed out that repetition of the poster message is necessary to firmly establish it in young minds.

The poster was designed by John Mower and Neal Patton, 8th grade students at the Kelly Field G-I School, San Antonio, Texas. They prepared the poster for the Thirteenth National Traffic Safety Poster Contest, sponsored by the American Automobile Association. The poster won a first prize in one division of the contest and was later selected by the judges for reproduction and national distribution.

I am convinced that the office of the President is not such a very difficult one to fill, his duties being mainly to execute the laws of Congress. — Admiral George Dewey.

## Soil Bank for the Part-Time Farmer

Workers in business and industry who farm part-time may find ASC's Soil Bank helpful, according to W. T. Powers, Administrative Officer for the Agriculture Stabilization and Conservation State Committee. The Soil Bank Program, consisting of the Acreage Reserve and the Conservation Reserve, is made available to farmers primarily to reduce the accumulated surpluses of allotment and cash crops.

Under the Acreage Reserve phase of the program, farmers agree not to plant some of their acreage of allotment crops, holding their planting of other crops down to the level of previous years, and receive a payment which will nearly equal the net return they would have realized had the allotment crop been planted and sold. Under the Conservation Reserve phase of the program, farmers may receive payments for devoting some of their cropland to conservation uses while holding their plantings of each crop below the level of previous years.

This program is ideally applicable in the case of many small or part-time farmers who have been working part-time in a local plant, office, or factory. By temporarily placing their eligible acreage in the Soil Bank, these workers may devote full time to their office or factory, or they may take special training or night courses to qualify for better pay on the job. Persons who farm only part-time because of health reasons or physical handicaps may also improve their position by participating in the Soil Bank. When farmers take land out of production of such crops as wheat or tobacco and put it in the Soil Bank, they will have more time for work away from the farm and they will at the same time be helping to reduce accumulated

## Christian Scientist Retreat Planned at Marilyn's Inn

Virginia Beach, Va. — Mrs. Mabel Strohokor, managing owner of Marilyn's Inn, is completing plans to open a retreat for Christian Scientists during the late fall, winter and spring. She is setting aside 20 rooms in the hotel annex for such guests who are seeking rest, quietness and a place to study. A reading room will be added for the benefit of the guests, and if desired—a room for practitioners wishing to be located in the center of the beach. She and her local science friends, believe such an ideal location winter weather, will find such a retreat most welcome.

While there is no church edifice in Virginia Beach at present there is an informal group that hold services every Wednesday evening and Sunday morning at 328 14th street and Arctic Circle. The members are now working towards building a church within a short time. Plans have been drawn and the location found. The nearest church is Norfolk.

Mrs. Strohokor has been in Christian Science several years. She became a member of the church in Richmond. When she came to Virginia Beach she transferred her membership to Norfolk until the present organization was formed. She is a member of The Mother Church in Boston, Mass., and an ardent worker in the movement.

Late this month she will have as her guests Major General and Charles Christinberry, of Second

Church, New York City, and one of the outstanding members. EORTANTHU tel CC-48c

General Christinberry has been prominent throughout his long army career. For several years he was stationed in the Philippines under Gen. Douglas Mac Arthur and later in Korea where his work was highly recognized by the Koreans. He is today President of the Korean Foundation with offices in the United Nations building.

## Cavalier Club Announces New Entertainment

Penny Parker and the Bob Lappin Trio open a double billing of entertainment in the Cavalier's Hunt Room on Monday evening, September 23rd.

Sidney Banks announced that this brings The Hunt Room a new type of continuous entertainment alternating Penny Parker at the piano with the trio. They come directly from the exclusive Sky Room of the new Diamond Beach Club in Wildwood, N.J., where they have been featured together in a most successful engagement.

Penny Parker is styled as a terrific piano and sings a wide range of songs. Aside from her engagement at The Sky Room, she is quite a name entertainer with previous engagements that include such notably fine spots as the Largo Bar in Fort Lauderdale, The Skyway in Cleveland, The Shelbourne in Atlantic City, The New Yorker in New York, The Casa Blanca in Palm Beach, The Lindo Billmore in Sarasota, Florida, Ruby Foos in Montreal, The Southward at Vero Beach, The Monte Cristo, in Palm Beach and many others.

Bob Lappin who takes a turn every half hour on The Hunt Room band platform is considered an exponent and authority on modern music. A composer, band leader and accomplished master of ceremonies, he has appeared with Larry Green, The Three Suns, Bill Kenny, and the Ink Spots in the east.

Penny Parker and the Bob Lappin Trio take over in The Hunt Room at the conclusion of Harry Taylor's summer engagement here. They will play every evening except Sundays from 9:30 to 12:30 in The Hunt Room (Saturdays from 9:30 to 1:00 a.m. in the Cavalier Room) and for tea dancing Sunday afternoon in The Hunt Room.

## Sunday School Workers Train At First Baptist

A full program of training for workers in FIRST BAPTIST SUNDAY SCHOOL has been outlined for this year. First of these classes will begin Wednesday night under the leadership of Mrs. W. D. Seesema. Her theme will be "IMPROVEMENT OF TEACHING."

This class will be held Wednesday Sept. 18th at 8:45 p.m. A goal of 505 awards is the aim of the teaching program. These completing this first book will receive an award.

Increasing interest in the Sunday Evening Worship Service is the result of a growing TRAINING UNION PROGRAM and a more lively musical program. The right to free speech is dear to the heart of America. Sometimes it creates a critical spirit. "It is Your Privilege" is the theme for Sunday evening.

Humility must always be the portion of any man who receives acclaim earned in the blood of his followers and the sacrifices of his friends.—Dwight D. Eisenhower.

## FORT STORY TELLINGS -

**SOLDIER OF THE MONTH**  
A Fort Story Specialist Third Class with a background in salesmanship proved he had what it took to "sell himself" to a selection board. As a result, Sp/3 Anthony Pelletieri, of Headquarters and Headquarters Detachment, 10th Transportation Terminal Battalion, was named Fort Story's Soldier of the Month.

Pelletieri, who in his position as Information Services Non-commissioned Officer is in charge of all troop and public information activities for his battalion, was a salesman for Pelletier Shoes, Incorporated before entering the service. He is a graduate of the Cardinal Mindandy High School, Dunkirk, New York.

After completing Basic Training at Fort Dix, New Jersey in the winter of 1955, Specialist Pelletieri attended the Supply Handlers' Course at the Quartermaster School, Fort Lee, Virginia. Graduating in June, 1956, he was assigned to duty at Fort Story with the 566th Terminal Service Company. He served with the 565th in the Far North participating in the immense joint Army-Navy mission to resupply Arctic air-bases and radar sites.

In February, 1957, Pelletieri was transferred to the 10th Battalion Headquarters and his Information duties. Competing with representatives from eleven other Fort Story units, Pelletieri exhibited a soldierly appearance, devotion to duty, and a thorough knowledge

of military subjects and current events.

### BEST MESS

Sergeant First Class William H. Cuffee, mess steward of Fort Story's 604th Amphibious Truck Company, was "doing what comes naturally" last week when he presented the plaque signifying that his mess was Fort Story's finest for the month of August.

Sergeant Cuffee is the proud wearer of the Army Commendation Ribbon, which he won in Korea in 1953 while serving as mess sergeant for the 92nd Searchlight Battalion. The ribbon was awarded to Sergeant Cuffee for his outstanding service in managing the 92's mess during combat.

The 604th's mess hall at Fort Story bears ample testimony to Sergeant Cuffee's skill as mess management, born of eight years' Army experience. Colonel George E. Woods, Jr., Fort Story's commanding officer, who made a tour of the mess hall after presenting Sergeant Cuffee with the Best Mess Plaque and flag, was visibly impressed as he sampled a cup of Sergeant Cuffee's coffee. It was just a year ago that Colonel Woods presented the plaque to Cuffee when the sergeant was steward for the 612th Amphibious Truck Company here.

First Lieutenant Edward Benson is the commanding officer of the 604th, and Second Lieutenant Ronald M. Hendricks is Mess Officer.

Fort Story, and will serve as S-4 for the post and the 5th Transportation Terminal Command "B".

As S-4, Colonel Renn will have supervision over all post technical services, and will advise the commanding officer on logistical matters. Before his assignment to Fort Story, Colonel Renn was a Professor of Military Science and Tactics at the University of Wisconsin, Madison.

### COMBAT TRAINING

Four officers and 20 enlisted men from Fort Story's 10th Transportation Battalion will leave for Camp A. P. Hill September 18. They will be an advance party and prepare a bivouac site for the remainder of the battalion when the 10th moves into the field September 23, for a week of intensive field training.

The field exercises at A. P. Hill will parallel the training carried on by the 14th Battalion from Fort Story, which returned from Camp Hill last Friday. Battalion Commander Lieutenant Colonel C. E. A. Morgan will lead his 300 officers and men in a series of day and night military problems, designed to test and to implement the men's combat readiness.

Lieutenant Edward J. Benson, commanding officer of the 604th Amphibious Truck Company will be the officer in charge of the advance party. Planning for the week's encampment was carried out by the Battalion S-3 Section.

## Chesapeake Beach Womans Club Holds Meet at Delhaven Gardens

The Chesapeake Beach Woman's Club held a luncheon meeting at Delhaven Gardens Tuesday, September 10. Mrs. E. A. Hudson

Participation of the club in the Community Center Building Fund also was described.

This is a joint committee, comprising the Woman's Club, Chesapeake Beach Men's Club and the local Volunteer Fire Department. Mrs. M. K. Crockett, Jr., president of the Bayside Junior Woman's Club, described the connection of her organization with its

parent group, the Chesapeake Beach Woman's Club, and reports were given by board members of the senior club.

It was voted that \$10 be contributed to the library fund of the John B. Dey school.

A joint meeting will be held with the Bayside Junior Woman's Club September 19. Mrs. R. J. Veilines was elected a delegate to the district meeting October 23, with Mrs. W. H. Gaylord as alternate.

A very poor harvest season such as we had this year is harmful to the production of good quality small grain seed. Southern States supply is good, but with heavier than usual demand the supply could become short.

## The MIXING BOWL..

IT'S Fun TO COOK

By LUCILE CLARK  
SUN-NEWS FOOD EDITOR

For the very latest in food fads and foibles... for practical, down-to-earth recipes that please both palate and pocketbook, read the "Mixing Bowl" by Lucile Clark each Thursday in the Sun-News.

Its Apple Harvest Time in Virginia! Isn't that wonderful news? It was just grand to receive word from Bill Willis, Information section, Virginia Department of Agriculture that he was sending along news of the Apple Harvest, a very SPECIAL time in Virginia.

Virginia ranks third in Apple production among all states of the United States. Over ten million bushels of apples were harvested in Virginia last year.

Many varieties of apples are grown in Virginia. Largest producers are Delicious, Stayman, Winesap, and York Imperial.

Other popular varieties are Grimes Golden, Jonathan, Ben Davis, and Gano, Black Twig, Golden Delicious, Rome Beauty and Albermarle Pippin.

Frederick County ranks as Virginia's largest apple-producing county, with more than 500,000 trees. Others following closely behind are Clarke, Shenandoah, Rappahannock, Albemarle, Augusta, Nelson, Botetourt and Roanoke. Still other counties that rank high in apple production are Warren, Rockingham, Franklin, Carroll and Patrick, followed by Madison, Amherst, Bedford, Smyth and Wise.

Virginia apples are sold in supermarkets, groceries, at roadside stands and markets in Virginia and many neighboring states. Processors find Virginia varieties ideal for canning, making applesauce and apple butter, cider and vinegar, and making syrups and jellies.

Nearly large markets that utilize Virginia apples are Atlanta, Baltimore, Boston, New York City, Philadelphia and Washington.

Since the time of Captain John Smith and early Jamestown, Virginia apples have provided a valuable food source. History records that Smith and his followers found the apple growing soon after their arrival in the new land. Better cultivation, grafting and constant development have resulted in a Virginia apple that is today the finest in quality.

**Fried Apples For Breakfast,**

**Virginia Tradition**  
For generations, fried apples for breakfast have been a traditional part of Virginia menus. Like hominy grits in the Carolinas, many Virginians insist on fried apples accompanying their bacon and

eggs. The apples complement these other foods nicely and make an attractive dish to whet the appetite on crisp autumn mornings.

Some Virginia housewives prepare their entire breakfasts around a tempting platter of fried apples and sausage, with cereal or fruit juice added, along with the morning coffee. Several well-known Virginia restaurants and hotels make the dish a specialty that is remembered by visitors to the Old Dominion who often write back requesting recipes.

Another advantage of fried apples is that little time is required to prepare them, and they can be frying to a golden brown while you fix the rest of the meal.

Here's a recipe that combines fried apples with bacon:

Fry the bacon, or salt pork first,

drain and keep hot. Leave about four teaspoons of fat in the skillet, fill with sliced apples, sprinkle with sugar, cover and cook slowly until tender. Remove the cover and let the apples brown. Serve on a hot platter with the bacon. This provides a substantial meal to last until lunchtime.

Apple sauce and apple butter are good breakfast items, too.

### Doughnut Recipes

**Sound Like Fall**

Doughnuts and autumn just seem to go together. And you'll have plenty of time between now and time for football parties, after-school snacks, or even Halloween to test this interesting sounding recipe for a different twist to the old favorites... apple doughnuts.

2 1/2 cups flour  
2 tsp. baking powder  
1/2 tsp. nutmeg  
2 tbsp. shortening  
3/4 cup sugar  
2 eggs  
3/4 cup well drained canned apples  
1/2 cup milk

Sift flour, baking powder, salt and nutmeg. Cream shortening and sugar thoroughly. Add eggs one at a time, then alternately add liquid and dry ingredients. Drop by teaspoons into fat heated to 375 degrees for about three minutes. Roll doughnuts in cinnamon sugar.

Nancy Boggs, of Fairfax, Virginia won the Betty Crocker Future Homemaker test this spring. She won over about 5,000 other Virginia High School seniors. For two summers Nancy has worked with the Virginia Department of Agriculture. To make a top-notch homemaker Nancy thinks it will take a Cook — a chemist and a Comptroller. I'm glad she included, a cook-for I thoroughly agree with her. Nancy came up with her recipe for Apple Pie — made of course — with Virginia Apples.

Here it is—  
4 medium sized apples  
2 cup white or brown sugar  
1/4 tsp cinnamon  
1/4 tsp nutmeg  
2 tbsp flour  
1/2 tsp salt  
1 1/2 tbsp butter  
2 tbsp water or cream if apples are dry

Line a 9-inch pie pan with rich pastry. Peel apples, core, and cut into very thin pieces. Combine the sugar, cinnamon, nutmeg, salt and flour and sift over the apples. Stir the apples until they are well coated. Place them in the pie shell. Dot with butter. If the apples are dry, add the water or cream. Cover the pie with upper crust. Sift crust in center. Bake the pie in a hot oven 450° F. for 10 minutes. Reduce heat to 350° F. Bake the pie until apples are soft. (45 to 50 minutes).

For the special CHEESE CRUST use this recipe and add 1/4 cup grated sharp cheese to pastry when cutting in shortening.

Bye-Now — I'll be back soon, with more Apple Recipes. Happy Apple Harvest Time!

## LOST BOY

Dry those tears, Sonny. The Law has brought you home.

But when you're grown up, don't get lost then—for the Law won't be able to bring you home!

Sure, grown-ups often get lost. They choose the wrong road, they take the wrong turn, they depend on the wrong ideas, they seek the wrong aims. And some of them get lost again and again.

Why can't the Law bring them home, too? Well, when a grown-up gets lost he generally owes a lot of harm to himself and others. And then it's the job of the Law to protect people from the harm he is doing.

But, Sonny, when you grow up you're not going to get lost. We have thousands of churches for youngsters like you—and for your parents, too. Churches teach us to find ourselves before we have a chance to get lost.

### THE CHURCH FOR ALL...

The Church is the greatest teacher on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without it, strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and sup-  
(1) For his own sake. (2) For the sake of his community and nation. (3) For the sake of the Church itself, which needs his moral and financial support. Plan to go to church regularly and read your Bible daily.

## Black Beetle Found Blight Cause In Area; Control Steps Listed

The black turpentine beetle which is being credited as the cause of much of the blight to pine trees in the Princess Anne-Virginia Beach area is in for trouble since a treatment to kill the pest has been obtained, according to a spokesman for the Birdneck Point Community League, a group that has spearheaded the drive to eliminate the damaging blight.

Leaders of the Birdneck Point Community League, their own pine trees seriously affected by the pesky beetle, turned to Federal and State sources to learn the probable cause of the blight. They also contacted Frederick Heutte, the Director of Parks for the City of Norfolk, who aided them in securing information from the forestry divisions of the Federal and State governments.

Representatives of the Forest Service of the U.S. Department of Agriculture made inspections throughout the area and came up with the cause of the problem—the black turpentine beetle. The question was what could be done about it? They supplied the answer, too.

The new convention director has been in hotel and convention work practically all of his life since graduating from the University of Illinois.

## Child Safety Urged Here by Chief Johnson

"Don't compete with kids in traffic. Give them a break!" That was Chief of Police Reeves E. Johnson's plea to drivers today as he urged them to compensate for children's heedlessness in traffic with their own good judgment.

Chief Johnson said the current child safety program of the Virginia Beach Police and the Governor's Highway Safety Committee must have the full cooperation of all drivers if it is to be successful. The child safety program is part of the continuing nationwide back the attack on traffic accidents campaign.

"I've seen the remorse of many a driver after he's run down a child," Chief Johnson said. "But someone doesn't breathe life into a dead body. The time to show concern for children is before an accident happens."

He said that if drivers observe the following rules, they will probably never have to accuse themselves of bringing death or injury to a child.

1. Always expect the unexpected from children.

2. Keep a sharp lookout for children at all times, but especially in school zones, near playgrounds and other places where children gather.

3. When in the area of school zones, playgrounds, etc., be alert for traffic signs, signals, traffic police, school patrols and children themselves.

4. Don't be juvenile yourself by trying to compete with bike riders. So all you can do to avoid an accident.

## F.O.P.A. Hears County Officer

Detective Stone, president of the Fraternal Order of Police No. 8 of Princess Anne County, spoke to the members of the Fraternal Order of Police Associates No. 8 at their regular September dinner meeting Thursday night at Charlie's Seafood Restaurant on the Shore Drive.

Tremendous progress has been made in the past year in the County's Police Department, a progress that all citizens of the County should be proud of. This progress is being reflected by the presence of the Department's personnel of the Department by their enthusiasm and the pride in the many new innovations now enjoyed.

As of June 1, a raise in salary for all personnel went into effect with a \$5.00 per day expense allowance. A 15 day vacation with pay with the opportunity for each man to choose his vacation time is being enjoyed by the Police. The Police and Trial Board have worked out a system of advancement of personnel that has the enthusiastic support of the force. At present the Board of Supervisors are working on a pension plan for County personnel that will include the Policemen. A booklet is in the process of publication that covers all rules and regulations for the Police Officer and a copy will be furnished each man to keep in his possession at all times. New equipment has been installed to keep the department modern and efficient. All marked cars have the newest roof lights installed. These are red lights with a 360 degree beam. The Detective Bureau has a new finger printing camera in the photography division and a new Dictaphone installed.

The Policemen, themselves, have made great strides in improving their efficiency. The Fraternal Order of Police purchased 75 books on all phases of Police work which are loaned on a no cost basis to the men. It is worthy of note that the men keep these books in constant use. On land, donated by Dr. Venner, a pistol target practice range has been set up. The men built and paid for the equipment, including shell

## Supervisors Approve New P. A. Hi Lights

The Princess Anne County Board of Supervisors Monday approved the construction of nine twin light poles on Virginia Beach Boulevard directly in front of the Princess Anne High School.

New lighting at the school should greatly reduce the traffic hazard when night activities are scheduled at the school. It was explained to the Board. Cost of operating the lights is estimated at \$972 per year which will be shared equally by the County and the school board.

The Board rejected a proposed increase of \$56,000 in local funds for the county welfare department for the next two years. Instead the Board agreed to an increase of about \$8000 during the next year for a total of \$50,000 in local funds.

The Welfare Department had a tentative budget of about \$81,000 in the next fiscal year and \$97,000 for the following year. The budget figures are used in making a State budget.

It was pointed out in a letter of transmittal to the board, the Welfare Dept. said the requested increases were necessary because of the gains in old-age assistance and foster home cases involving children.

The proposed welfare budget was described as a tentative one that will be sent to the State Dept.

## PENDING SUIT PREVENTS NEW CONSTRUCTION

A way may be worked out between Princess Anne County and the City of Norfolk whereby additional school construction may proceed despite the annexation suit pending in the State Supreme Court, it was learned Wednesday.

Princess Anne School Superintendent Frank W. Cox issued a statement last week in which he pointed out that the County was stymied by law since it could not obligate the City of Norfolk until the present suit is settled.

The Princess Anne County Board of Supervisors instructed Cox to confer with Norfolk officials to see if a way could be worked out to provide additional school facilities in the county.

Norfolk School Superintendent J. J. Brewster said Tuesday that he would be happy to cooperate with Princess Anne County officials on the matter.

The thought behind the suggestion by Princess Anne County is that an agreement might be worked out with the City of Norfolk whereby the county could continue to build schools, pending an appeal by the city for more than 200 185 square mile area tentatively awarded by the court.

The County Board of Supervisors would like the city to agree to a special tax agreement which at debt incurred by the county in the county in the school construction program.

Under present State law the county is prohibited from obligating the city financially until annexation is decided.

## Parliament Opening; Canadians Cut Vacations Short

Most Canadians who spend their autumnal vacations at Virginia Beach are paring them this season. It is not because they have any fault to find but the fact Parliament opening in Ottawa October 14th with the new leader heading the new Conservative government is the cause. For three days Queen Elizabeth II and Prince Philip will be the official guests and the maiden speech of Prime Minister John Diefenbaker are the main reasons—and rightly so. Her Majesty will open Parliament and for The Dominion it equals or even tops a Presidential inauguration.

According to young Mr. and Mrs. Donald Martin, of Ottawa, who are spending a short vacation at The Martha Washington. The honey-mooners—both connected with the Canadian government over a period of years—Ottawa will be the scene of the gayest festivities for at least a fortnight. Montreal only 163 miles away will also come in for the celebration. Both claim it will be a tired Royal Couple hieing off for Jamestown and Williamsburg on October 17 or 18th. But they are young, healthy and strong and used to such things and will arrive in the Colonial Virginia capital in top-tole trim.

Says the petite Mrs. Martin: "we Canadians know far more about Virginia and Virginians than our cousins south of the border. We study your history, your political trends, your arts and fashions and certainly keep abreast of your sports. Nearly all Canadians we know who visit

Virginia Beach look upon it as an ideal resort. You have excellent bathing, golfing and tennis, but unfortunately no place for the average tourist to find evening entertainment. On the whole we are not night clubbers and we are finding it boring to sit about a lobby playing cards night after night. We just do not retire with birds and get up with the crows. A good operetta company with good local talent and professional principals should be a boom to the theatre and music lover."

In referring to how Ottawa would entertain The Queen and Philip, she said: In a measure it is quite a delicate problem. Every one in political and artistic circles wants to be present, but after all it's a case of many are called but few are chosen."

Mrs. Martin, is the former Elizabeth King, of Toronto. She was born in north Ireland moving to Toronto when a young girl. She has been working with the government over seven years during which time, through study and observation, has absorbed much of the parliamentary procedure and a working knowledge of the laws. She is attached to the House of Commons staff, which prepares the daily journal from which the house members follow the daily sittings. It is the only official journal from which the house goes by and the only one recognized by law. She is a secretary to one of the leading clerks. The Clerk of the House, Hon. Leon J. Raymond, of Quebec, holds a life job. It is one of the most important in Parliament.

Now according to both Mr. and Mrs. Martin (and this is what should interest the society set) the official reception for the Queen and Prince Philip is limited, and will no doubt be criticized by many feeling they have been slighted. Invitations will be sent to the 108 senators from all the provinces. Of the house members there will be 265 invitations. Others will be ambassadors and legation heads. Unfortunately the list is restricted to only members and wives—daughters will not be invited. Of course the church will be represented. Premier Diefenbaker is a strong churchman. Some have called him "the hard-shell Baptist in Canada," a man who believes in keeping the Sabbath holy. In his long political and legal career he has never delivered a speech or attended an official dinner on Sunday. As one of opponents once said of him: "John keeps to the motto, remember the Sabbath Day and keep it Holy, and it has brought him through."

Therefore among the clergy will be His Eminence Cardinal Leger, of Montreal; the Presiding Bishop of The Anglican church; Moderator of The Presbyterian church and heads of the United and Baptist congregations. Mrs. Martin states much interest will be centered around the Chinese member of the Parliament, Hon. Douglas Jung from Vancouver. The Governor General Hon. Vincent Massey will also come in for official honors as representative of Her Majesty. Mr. Massey's term runs out in February and all Canada is hoping and praying that the Queen mother will accept the post. The Conservatives, and especially the Prime Minister, wants to strengthen Commonwealth ties and would gladly accept Queen Elizabeth's popular

mother as her daughter's representative in Ottawa. The Queen Mother is well known in the U.S., especially Williamsburg and Washington. Her Majesty is also no stranger.

While Ottawa and Montreal are going all out for the royal visit, several Canadians at both Martha Washington and The Cavalier, claim Jamestown and Williamsburg is matching stone for stone to compete in the most royal way. Don Martin, who is connected with the Department of National Reserves (customs and excise) is considered somewhat of an expert in his field. He is also a keen sportsman and would like to be present in Baltimore when H.R.H. starts the football game between Maryland and North Carolina with the kick-off. However he is of the impression had Virginia Beach staged that proposed polo game in which Philip would have played, that would have been the crowning event of the Royal visit as Her Majesty is greatly interested in this international sport and is trying to bring Britain back as an international contender, and see matches between the U.S., Argentina, India and Mexico resumed.

During her visit to Virginia Her Majesty may take a notion to visit some of the well known breeding farms and try a bit of fox hunting. The proposed visit to the estate of Mr. Paul Mallon would almost indicate that.

Mrs. Martin is a great admirer of Prime Minister John Diefenbaker. Having worked in a secretarial capacity for him at odd times she got to know him quite well. She describes him as a big man, born and brought up with the common man and the aristocrat. He is never at loss with himself. As a lawyer he is perhaps the best in all Canada. He is fearless and believes in his principals. He is certainly not a person to be pushed about as has been proven on many, many occasions. He has the confidence of both President Eisenhower and Mr. John Foster Dulles. Some have compared him to the great German Chancellor Conrad Adenauer with a touch of the decisiveness of Gen. Franco.

To sum this up in the estimation of a woman Mr. Diefenbaker is a person that can be of great service to the hotel people. You have to meet and know him, and the people of Virginia Beach should visit, see and study Canada in mind, the coming years. Both she and her husband like Virginia Beach and intend to return next season for a longer visit. Both regret they have to leave so soon, but big days are looming up for them at home, and they know Queen Elizabeth and Philip will get a royal welcome at Jamestown and Williamsburg. "Only wish we could be part of the parade."

## EDITORIALLY SPEAKING

### Schools and Annexation Laws

The statement presented last week by Frank W. Cox, divisional superintendent of schools for Princess Anne County and Virginia Beach City, to the county school board pointing out the "hands are tied" position of the school administration in future school construction because of the existing annexation suit against Princess Anne County by the City of Norfolk brought to light an aspect in school matters that probably only a few people knew existed.

According to the statement, which was concurred in by the county school board, under existing state laws the county is prevented from taking any action at the present time to provide more classrooms because it would obligate the City of Norfolk.

Superintendent Cox pointed out the increase in pupil enrollment this year and the plans for new school construction that

had been hoped could be put into effect, but that now the annexation laws of Virginia prevents such action by Princess Anne County.

In a later development this week school authorities were advised to draw up a plan of school construction to cover the next several years and to meet with Norfolk school officials to determine if it would be possible for the City of Norfolk to approve continued school construction by Princess Anne County until the annexation suit is settled. The Princess Anne County Board of Supervisors instructed the school superintendent to proceed along these lines.

It appears that the Princess Anne County School Board is determined to meet its obligation to the people of the county for additional school facilities. Their stand in this regard is admirable and it is hoped that a way will be found to continue school construction in the county to break the stalemate that now exists because of the law.

### Car Speeding Should Be Curbed

A serious problem throughout the Nation is the excessive speed of motorists on the highways, but we have the same serious problem right here at home and it takes place on our streets and roads in and around Virginia Beach.

For years there has always been a drive on automobile speedsters in north Virginia Beach where many persons, knowingly or unknowingly, travel at speeds much too fast for safety on Atlantic Avenue. This is particularly true of motorists driving north from the city and after they travel beyond 47th Street, from that point to Fort Story the avenue becomes, in many instances, a veritable speedway.

However, speeding here is not confined to North Virginia Beach for there are other residential areas where a serious problem exists and has existed for some time. This is particularly true in the Bay Colony area and we assume that areas such as Birdneck Point are also victims of speeding motorists.

Observation has shown that most of the speeding in these areas is done by delivery trucks and tradesmen in general making

deliveries or salesmen. In some areas the newspaper route men are guilty.

We believe that in some cases the guilty drivers are not familiar with the area or the speed limits. Thus far, in the Bay Colony and Birdneck Point areas and in similar residential areas the greatest loss has been in the lives of pet dogs. However, in these residential areas there are many small children playing and steps should be taken immediately to curb these speed merchants before a serious accident occurs.

More frequent patrolling of these areas by the police and arrests of these drivers found guilty is a sure way to break up the menace to our children and to our property. It might also be advisable for the police department to write a letter to all firms in Norfolk and in Virginia Beach, who make deliveries to educate their employees to observe the speed laws of our community.

We feel it is time put a halt to the speeders in our area and we believe that if the drivers are allowed to continue to speed through our populated areas we will one day experience a serious accident involving children. Let's curb the speeding motorist now.

### The Physically Handicapped

Each year we observe a week as "Employ the Physically Handicapped" and this year it is the week of October 6 through October 12. Mayor Frank Dusch has proclaimed the week in Virginia Beach and it is being observed throughout the Nation.

Often it is asked, "What kind of jobs can they do? The answer is that there is hardly any job that the physically handicapped cannot do. This has been proven in American industry. Since World War Two a physical disability has not been a bar to advancement in industry and the professions.

During the last war it was shown that the physically handicapped could do the job. With many able bodied men in uni-

form the physically handicapped were pressed into civilian jobs and did yeoman service.

The physically handicapped have advanced so far today that it is very difficult to distinguish between the physically sound and the handicapped today.

Many local firms employ physically handicapped persons today. However, it would seem that the word handicapped is out of place since these employees, in many instances, prove to be more capable in their jobs than the physically sound ones.

It is good to recognize these important workers for they contribute much to our business life today.

### Survey and Our Needs

Surveys and public opinion polls may be good in some instances but we have serious doubt that such public surveys on questions such as the present ABC laws in Virginia and the right of local option to determine the question of liberalizing the ABC laws is the proper approach.

A survey dealing with such a matter lapses its effect when persons contacted, in many instances, offer no comment for the simple reason that they know any comment would be made public and attributed to the individual. With this type survey many persons are inclined to withhold comment because of the public nature of the survey.

Surveys are right and proper, but should be conducted in good taste and whenever a controversial question is involved such a survey should be handled in a way that

it would receive the information desired without placing an individual in what might be an embarrassing position.

Last week a Sun-News subscriber wrote a letter which was published in which he touched on the question of liberalizing the present ABC laws. He referred to the matter in a general discussion of the need for more entertainment and activities for the vacationer. He did not suggest a public survey but merely offered his opinion.

In our opinion a survey that would reveal the desires and wishes of organizations, clubs and similar groups would be much more accurate and effective than to question individuals as to their view on local option and liberalization of the present ABC laws.

## OBITUARIES

### JOSEPH JOHN ANDERSON

Joseph John Anderson, 71, of 208 27th Street, Va. Beach, died in a local hospital at 12:10 a.m. Sunday after a long illness.

Mr. Anderson was a native of Legett, N.C., the son of the late B. A. and Mrs. Edna Armstrong Anderson. He had been a resident of Va. Beach for the past 17 years. Mr. Anderson was a member of the Virginia Beach Presbyterian Church.

Surviving are his wife, Mrs. Roland Simon Anderson, one daughter, Mrs. L. H. Potter; one son, Dr. J. R. Anderson, all of Virginia Beach; 2 brothers, Tom Anderson, of Tarboro, N.C.; Ar-

lington Anderson, of Whitakers, N.C.; 2 sisters, Mrs. Minnie Bradley also of Tarboro, and Mrs. Carter Taylor of Whitakers, N.C.; 6 grandchildren and several nieces and nephews.

The body was removed to the Maestas Funeral Home, Virginia Beach.

Funeral services were conducted Tuesday at 2:00 p.m. at the Virginia Beach Presbyterian Church by the Rev. Henry G. Morgan, pastor. Burial was in Rosewood Memorial Park, Princess Anne County.

Pallbearers were: Baxter Sparks, Ervin Marden, W. W. Johnson, H. D. Nelson, P. H. Ware, and Julius Pausen.

## Leaders Needed In Local Girl Scout Program

An urgent appeal for Girl Scout leaders and assistants in the Virginia Beach area, is being made by the neighborhood chairman, Mrs. Paul Dolgins.

Mrs. Dolgins, recently returned from a district Girl Scout meeting, noted that the Virginia Beach Scouting Program is limited by this critical shortage of leaders and assistants. There is a large waiting list of girls wanting to be Scouts and the opportunity since all present troops are filled to capacity.

The Girl Scout Program offers girls between the ages of seven and fourteen, membership in an organization rich in tradition and the American way of life. The program aids the home, school and church in developing the girls' responsibility and good citizenship.

The need for responsible women to expand the local program is great. Experience is not needed, nor must one have a daughter interested in scouting. Women working with the Girl Scouts have found that they have as much fun and adventure as the girls themselves. All that is needed is a few spare hours a week. Few activities give such genuine satisfaction.

If you would like more information about joining the Virginia Beach Scout Program, call Estelle Dolgins at 3378.

reloading equipment. This cuts the cost of ammunition considerably. The Police and Trial Board support this vital training with a \$50.00 per month ammunition allowance. Each man is required to qualify monthly at the range and the skill that the men have acquired is amazing.

There is a great pride felt by the entire Police Force of being a part of a friendly, close knit family that is constantly improving their way of life. The citizens of the County are the beneficiaries of this feeling as is shown by the numerous letters of commendation and appreciation written by people who have been served and helped by individual officers. Many of these letters state that the help was over and beyond the line of duty and from the number of letters from tourists who found the Police so helpful and courteous it is easy to see the Police have great pride in their Department and County.

The Board received a reprint from Dr. William Garrett, county health director, that 100 doses of Asian vaccine had been ordered for county police officers and perhaps public works employees.

## Student Group Holds Initial V. B. Meeting

The Student Council of Virginia Beach High School is certainly starting the school year with great success.

In the first assembly the new officers consisting of Bob Keville, President; Kip Moore, Vice President; Judy Vanbur, Treasurer; and Sue Williams, Secretary, welcomed the new students and gave talks on the rules of the school. They also explained the Honor Club and various activities of the school. Then each newly elected home room provid-

ent introduced all the new students to the student body. On Friday evening which was the 20th of September the S.C.A. sponsored the first school dance. It was held in the cafeteria after the football game. This dance was in honor of the new students. The S.C.A. made a nice profit and I'm sure everyone enjoyed themselves.

In addition to these accomplishments the council has set up special tables in the cafeteria for the classes at lunch time and has encouraged neatness and politeness while everyone is trying to eat or get lunch.

We certainly appreciate the work they've done this early in the year and we expect big things from them in the future!

## Gerald Heard Lectures Here

Gerald Heard, well-known author and lecturer, will lecture Saturday, September 28th, at 8 p.m. at Virginia Beach. The lecture will be open to the general public, and will be followed Sunday and Monday by Seminars.

His subject will be "Psychology and religion in the World Tomorrow" and will be presented at the Parish House, Episcopal Church, under the sponsorship of the Virginia Beach Interdenominational Prayer Group, and the Association for Research and Enlightenment.

Dr. Mina Kerr, leader of the Prayer Group, will introduce the speaker.

On Sunday, September 29th, a seminar will be held at 3:30 p.m. on "The Future of Prayer," and on Monday, September 30th, the second seminar will be held at 8 p.m. on "The Future of Psychology." Both seminars will be conducted at the headquarters of the A.R.E.

Dr. Heard has been termed "one of the ablest minds of the generation." He has written many books of thought dealing with religious topics, centered around the Lord's Prayer and the life of Christ. Among these are "The Creed of Christ," "Is God Evident?," "The Eternal Gospel," and "Training for the Life of the Spirit."

As a lecturer, Dr. Heard has helped many persons to live a more spiritual life. One of his later books, "Is God Evident," is composed of the gist of day by day reading and research in the latest findings in physics, biology, and psychology. "Take these findings as a whole," says Heard, "and it seems impossible to avoid the conclusion that the world, life and man have a coordinated pattern and purpose."

The Parish House of the Episcopal Church is located at 40th Street and Pacific Avenue. The A.R.E. headquarters is located at 67th Street and Atlantic Avenue. For further information, telephone the A.R.E. at 954. Members of the A.R.E. and the Prayer Group have tickets available for sale at nominal rates.

## New Insurance Plan Covers Student Group

A new life insurance plan for student groups has received the endorsement of school officials and principals in Princess Anne County and the City of Virginia Beach.

The plan, announced elsewhere in this newspaper, affords maximum life coverage for any child entering school and is renewable each year at a small premium.

Only by mass participation could a policy offering this extremely low premium be activated, it was explained. It features a no examination policy and renewable or convertible at any time while in force to any endowment life insurance plan.

Frank W. Cox, divisional school superintendent, stated that the insurance plan was especially attractive in that it covers the student for a full 12 month period. The student is covered on a 24 hour basis, Cox added.

The insurance plan gives \$1000 protection to the student for a small annual premium and the policy is renewable each year up to age 25.

The new group insurance plan was explained to teachers and principals at a recent meeting. It was brought out at the meeting that this is the first such plan in the United States and that in the last three weeks the entire school system of Virginia has been offered the group insurance policy.

Students will receive application blanks for the new policy soon.

## NOTES FROM YOUR COUNTY AGENT

By E. R. "DICK" COCKRELL, JR.

LISTEN TO YOUR COUNTY AGENT 12:30 MON. THRU FRI. ON WBOF; 6:20 THURSDAYS, W.T.A.R.; 12:10 SATURDAY, WTAR

This is the first in a continuous series of articles by your County Agent. It will appear each week under the above caption. We will discuss timely topics of interest to you, the farmer, regarding production and marketing practices. There will also be hints for back-yard gardeners and fruit growers. When the occasion and season pre-

sents itself we will also discuss the establishing and maintaining of lawns. There are many problems facing the people of Princess Anne County in both the rural and suburban areas that agricultural help in answering. For the 4-H club members in the county, there will be some weekly news

pertaining to 4-H clubs in Princess Anne and the State.

### STORM DAMAGE CAN BE REDUCED

We are now in the middle of the hurricane storm season which means that many farm buildings will be damaged. "Good construction and timely repairs can prevent much storm damage to farm buildings." This is what Dan Kite, the Agricultural Engineer at V. P. I., told Menno Beller when we were working with him in building his new dairy tramp shed on Salem Road.

Thinking about this storm season, several ideas came to my mind of things that we may do that may be of help. Hurricanes do not blow with uniform velocity. They are gusty, and the direction of the wind frequently changes. High wind causes pressure on the windward side and suction on the leeward side. This means buildings should be constructed to resist the force of the wind from all directions.

Common structural weaknesses that let wind do damage include: poor foundations; lack of enough anchorage of sills to the foundation; not enough fastening of studs and posts to sills, and not enough bracing of walls and roof; inadequate fastening of roof rafters to plates or side walls; improper installations of roof; decay and deteriorations of frame; and weak master joints in masonry buildings.

On existing frame buildings you should: Check the soundness of the wood; replace, if needed, with new members. Add 24 gauge galvanized steel straps or plumb lines to hold to footing or piers. On long masonry walls, add pillars at 10 to 12 intervals.

Buildings of pole-type construction should have poles set 4 to 6 feet in the ground.

### PLASTIC PIPE MEANS MORE FRESH WATER

Dairy cattle and beef cattle consume more water than any other kinds of livestock. Actually an animal's body is made up largely of water. Milk is approximately 88% water, so you can see the necessity of animals having at all times a plentiful supply of clean, fresh water.

The cost of having water in all pasture fields has heretofore been too expensive to have. Therefore, dairy farmers and beef cattle producers did not have water in all fields. Cattle would have to come to the barn in order to get the water. Because of the travel involved, cattle would not make the trip as often as actually needed.

Howard Jones has found the use of plastic pipe to be very satisfactory. The cost is very small compared to galvanized pipe and can be placed in the ground with a very small amount of labor. In running plastic pipe throughout his farm, Howard plowed a furrow with a plow placed the pipe in it and covered it with the plow. After attaching faucets, clean, fresh water was available for his Shorthorns in each of his pastures.

### WHAT'S THE LATEST DATE I CAN RISK SEEDING ALFALFA

Here in eastern Virginia we can seed alfalfa after the first good rain in September up until October 1. This is a good time to seed alfalfa so a good root system will develop before cold weather. For complete details regarding seeding alfalfa, drop me a card and ask for Circular 694—Alfalfa SEEDING SUGGESTIONS. This is a very good bulletin. It includes the preparation of seedbed, the adapted varieties for this area, inoculation, and the seeding method. One of the most important things it gives is the fertilization of alfalfa. I believe you will find this bulletin most helpful.

One big suggestion in seeding is to be sure that you use a cylinder packer for firming the seedbed before and after seeding. Stanley Oliver at Bayside says that this is the most important step in getting a good stand of alfalfa. This is just as important as seeding our various pasture mixtures.

### 4-H BABY BEEF PROJECT

During the past few years the 4-H Baby Beef Project has developed a great deal of interest and enthusiasm in Princess Anne County. Many 4-H members look forward to the time when they will receive their steers each year. This year the boys got their steers about three weeks earlier than usual. There are several advantages to getting their animals on feed earlier. It gives the boys an opportunity to produce a heavier animal with a more desirable

finish. It also gives them an opportunity to work with their steers a great deal before winter. Another advantage is that the steers are younger and easier to handle and train.

This year there are fifteen boys taking the project. They are equally divided between the Anne County and the State.

Each 4-H club member who takes the project has a local civic organization or business man as his sponsor. The sponsor loans the boy money to buy his steer, gives him encouragement during the year, and helps furnish prize money for the show.

The members and sponsors enrolled in the project this year are: Billy Brown—National Bank of Commerce; Billy Curns—Southern States; Tommy Chism—S. D. Scott & Co.; Gene Smith—Creeds Ruritan Club; Everett Smith—Kline Chevrolet Sales; Richard

Bearlight—Princess Anne Farm Bureau; Al Bearlight—Northfolk Chamber of Commerce; Curtis Shirley—Kellam & Eaton, Inc.; Alan Senger—Bank of Virginia Beach; Tommy Upton—Berkley Feed Corporation; Jamie Buffington—Colonial Store; Bobby Barnes—Jordan-Hancock Grain Co.; Johnny Joyce—F. S. Royer Guano Co.; James Barrett—Princess Anne Farms; and Eddie Mayo—Food Fair.

### 4-H CLUB MEMBERS ATTEND STATE FAIR

On Tuesday, September 24, thirty-five (35) 4-H club members from Princess Anne attended the State Fair in Richmond. The Atlantic Rural Exposition or State Fair of Virginia is considered the Old Dominion's greatest annual attraction with over half a million people attending each year. Exhibits are display pertaining

to agriculture, industry, commerce, and culture. These exhibits serve as a great classroom for thousands of 4-H club members who attend. They also teach adults the latest developments in many fields and are influential in bettering their way to life.

Jim Bob Porter, a 4-H Club member from Bayside was quite thrilled to have shown his 4-H dairy heifer at the State Fair. Keep up the good work Jim Bob.

## Wheat Acreage Reserve Penalty Explained

Any time a farmer harvests more wheat acres than he has agreed to under the Soil Bank's 1956 wheat Acreage Reserve program, he not only loses his Acreage Reserve payment but also is subject to a civil penalty. W. F. Hunger, Chairman of the Princess Anne Agricultural Stabilization and Conservation Committee said today.

"Farmers should be very sure that they understand the provisions of the Acreage Reserve program regarding violations," the Chairman commented. "We are most anxious that there be no confusion resulting from misunderstanding."

The Chairman explained that there are two acreage limitations that any wheat farmer must comply with if he has land designated under the wheat Acreage Reserve program. These are (1) the "maximum" acreage of wheat — which is the wheat allotment less the wheat acreage put in the Acreage Reserve, and (2) the "permitted acreage" — which is the farm's Soil Bank base less the wheat acreage put in the Acreage Reserve.

The Soil Bank base for a farm is in general the average of Soil Bank base crops harvested on the farm during the past 2 years. Soil Bank base crops include the basics, such as wheat, corn, cotton, tobacco, and peanuts, and generally all crops produced on the farm except hay crops.

Program regulators have recently been modified so that a wheat farmer who exceeds the overall "permitted acreage" — by harvesting excess acreage of some crop other than wheat—loses the entire payment he would have earned by complying with all provisions of the Acreage Reserve program; no civil penalty applies in this case.

However, if the wheat farmer harvests more wheat than his wheat allotment less the land in the Acreage Reserve, the farmer is subject to both loss of his payment and a civil penalty of 50 per cent of the payment.

The civil penalty also applies to such violations as grazing or harvesting a crop from land designated under an Acreage Reserve agreement.

## The MIXING BOWL..

### IT'S Fun TO COOK

By LUCILE CLARK  
SUN-NEWS FOOD EDITOR

For the very latest in food fads and foibles... for practical, down-to-earth recipes that please both palate and pocketbook, read the "Mixing Bowl" by Lucile Clark each Thursday in the Sun-News.

With Autumn comes a pick-up in the appetite curve and what is more tempting chicken stews, Brunswick Stew, rich creamed chicken or fancy chicken sandwiches. These delightful dishes are all prepared from an easy-on-the-budget, stewing-type chickens. Plump, whole stewing chicken is an especially good buy for family eating or party entertaining. A three and one-half to four pounds chicken will yield over four cups of boned chicken meat and the stock makes a wonderfully rich base for soups and gravies.

Ready-to-cook stewing chickens,

so often called "old Hens" are found in the meat department of the markets in three to six-pound sizes, in refrigerated displays or quick-frozen. Both types are banded and buying a well-known brand assures you of getting fresh, plump chicken that will be tender and flavorful when served.

Long, slow cooking in moist heat emphasizes the tender qualities of the stewing chicken. Either cut up the chicken or leave it whole. For cooking, I like to cook it whole, why take extra time and cut it up? After it has cooked until very tender, it is easy to remove meat from bones. Place chicken in large kettle. Cover with water, add at least one tablespoon of salt, a couple of pieces of celery and any of your favorite seasonings. Let come to full rolling boil, reduce heat and cover tightly. Simmer until thigh meat is fork-tender. When chicken is done, remove and let cool slightly.

The meat will easily pull away from the bone, remove skin and bones. Cut in size pieces you like. Store in refrigerator until ready to use - Store broth when cool.

Here are some recipes that you'll find taste-tempting.

**Colossal Chicken Sandwich**  
Yield: 12 sandwiches  
24 slices cooked chicken  
1 loaf round bread  
Butter  
Lettuce  
12 slices Swiss cheese  
12 slices tomato  
Thousand Island Dressing

To make the sandwich, cut through bread horizontally. Spread each half of bread with butter. Place a layer of chicken on each half of the bread. Cover with layers of lettuce, slices of Swiss cheese, tomato and chicken. Top with Thousand Island dressing. Cut each round into 6 portions.

#### Chicken Fluff

Yield: 6 servings  
2 cups diced cooked chicken  
1/2 cup butter  
1 medium onion, thinly sliced  
1 cup rice  
1/2 teaspoon salt  
1/2 teaspoon pepper  
2 cups chicken bouillon  
1/2 cup shredded sharp cheese  
1/4 cup thinly sliced green pepper  
Melt butter in a skillet. Add onion and cook one minute. Wash rice in cold water. Dry well. Add rice, salt and pepper to skillet and cook slowly for 3 minutes, stirring constantly. Add bouillon to rice

mixture and bring to a boil. Add chicken. Cover and cook over low heat or bake in a moderate oven (375°F.) for about 20 minutes, or until rice is tender. Remove and stir in cheese and green pepper.

**Chicken Salad**  
2 cups cooked chicken  
Juice of 1/2 lemon  
1/4 cup (about) mayonnaise  
(Salad Dressing if you prefer)  
1/4 cup celery

The meat of a plump fowl (boiled) is the best for chicken salad, left over roast chicken may be used, though best moist. Cut cooked and cooled chicken in neat cubes—do not mince, remove all skin and gristle. Sprinkle with lemon juice and let stand about an hour. Mix with mayonnaise or dressing, thoroughly blending in the celery. If you like you may add 2 hard-cooked eggs and 1/2 cup chopped pickle.

To vary - use toasted, sliced almonds and celery with the chicken; tiny seedless green grapes are a nice combination - or maybe you'd like to try a combination of pineapple tid-bits - celery and chicken - Anyone of these are mighty good. Try them and see for yourself—Bye-bye.

## REMEMBER?

Being a child isn't nearly so much fun when it's happening, as it is when you look back on it!

Somewhere we remember, when we get a little older, just how much better strawberry shortcake tasted then, and how special each day seemed. We forget the scraped knees, the hurt feelings, the times when we were naughty and got punished!

Most of us belonged to some particular church in our childhood. Looking back, it often seems like it was the best church in the world. Yet... like so much of what we remember of childhood... it wasn't really... BECAUSE ALL CHURCHES ARE WONDERFUL.

"In My Father's House Are Many Mansions." Jesus wasn't speaking of earthly houses. Yet, on earth, God has many mansions too. Your church is anybody's church... it is one of them.

Go to Church this Sunday, especially if you haven't been for a while. You'll find that going to church now is a lot better than just remembering the church of your childhood.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### SHARPSHOOTERS

Fort Story's top marksmen are currently squeezing off rounds at the Camp Pendleton Rifle Range, but their sights are on the United States Transportation Training Command Small Arms Championships at Fort Eustis in October.

The Story sharpshooters, twelve each from the 10th and 14th Battalions, will compete on October 5 in the Inter-Battalion Championships. The ten top scorers will fire in the Eustis match. Small arms competition is on the up-swing throughout the Army, as part of an effort to revive an interest in marksmanship. Representatives each of the seven major subordinate commands of the USATTC will be entered in the Fort Eustis championships.

### COMMAND INSPECTION

Major General Rush B. Lincoln, Jr., will be accompanied by Colonel George E. Woods, Jr., Fort Story's commanding officer on the command inspection. Members of General Lincoln's and

Colonel Wood's staffs will complete the inspection party.

The 14th Battalion, currently commanded by Lieutenant Colonel Joseph E. This is the **EDSEL**  
"It puts shifting where it belongs"

Edsel Teletouch Drive lets you shift without lifting a hand from the wheel

You can drive the Edsel—park it—reverse it—rock it—while both hands stay at the wheel. For Edsel's exclusive Teletouch Drive puts the shift controls where they belong: in the center of the steering wheel. And all shifting, even into park position, is effortless, because the Edsel actually shifts itself. The Teletouch Drive button you touch sends a signal to the rugged, precision "brain," and it does the work—smoothly, surely, electrically.

You'll find everything about the Edsel as original and advanced as Teletouch. The Edsel's elegant lines, vertical grille and low, wide flight deck promise you that. And the big Edsel V-8's—newest in the world—prove it beyond a doubt. See your Edsel Dealer soon. Edsel prices range from just above the lowest to just below the highest. You can afford an Edsel. And you choose from 4 series, 18 models. EDESEL DIVISION - FORD MOTOR COMPANY
